

LEAGUE TO SETTLE ALAND DISPUTE

Finland and Sweden Agree to
Accept Intervention in
Quarrel Over Islands.

Paris.—Finland and Sweden have agreed to accept the intervention of the league of nations for the settlement of the dispute between them over the possession of the Aland islands, lying at the mouth of the Gulf of Bothnia between the two countries. A commission will be appointed by the executive council of the league to investigate the question and reach an early decision.

The decision of Finland and Sweden to accept the intervention of the league was taken at a meeting of the council, which was attended by Hjalmar Branting, the Swedish premier, and M. Enckell, the Finnish foreign minister.

Sweden's claims to ownership of the Aland islands date back more than a century. They belonged to her up to 1809, when they were taken by Russia and attached to the province of Finland. Separated from Russia as a consequence of war and the Russian revolution, Finland now claims she is entitled to the continued ownership of the group. Sweden is setting up previous ownership, together with the large preponderance of Swedish population of the islands, as reasons why they should now revert to her.

27 FOOD ARTICLES DECREASE IN PRICE

Washington.—Twenty-seven of the 43 standard articles going into the American family market basket decreased in price between July 15 and August 15, it was announced by the department of labor's bureau of labor statistics, which made public figures showing that during the 30-day period ending with the middle of August the retail price of potatoes fell 44 per cent and the price of cabbage went down 41 per cent.

The drop in the sugar price was placed at 14 per cent. Most kinds of meat decreased in price.

Eggs went up 11 per cent. With this exception and pork chops, which increased 5 per cent, the increases in other foodstuffs were 2 per cent or less.

Indications that the decline in food-price levels was general is seen in statistics showing that each of the 51 cities covered by the bureau's survey reported decreases.

To-morrow Morning We Open Our Semi-Annual HOOSIER Club Plan Sale

The arrangement of the work space either makes or destroys the effectiveness of a kitchen cabinet. For here it is that 90 per cent of your work is done. Note the scientific arrangement of Hoosier's vital section—no partitions; nothing in the way, yet the most used conveniences are centered here. The table top is extra-size and can be had in either snow-white porcelain or pure aluminum.

Beyond question the Hoosier flour bin is the easiest to fill and keep clean. There is no possible place for dust or germs to lodge. Tightly fastened to the cabinet, it is never jostled, never spills, never jams or gets out of order. The patented flour shaker is four times faster, makes flour light and fluffy and wears far longer. It is easily removed for cleaning.

One of the most important parts about our cabinet is the arrangement of the doors over your work table. You can get your Hoosier with either roll doors or hinge doors. Hoosier roll doors are absolutely sanitary. They are the only ones that can be instantly removed for cleaning. There are no hidden places for food particles and dirt to collect. The hinge door models have some advantages of their own. Both are as convenient as it is possible to make them.

Twice each year these club plan sales are held simultaneously all over the country. Many thousands of homes are made more comfortable because these sales are held.
