STANFIELD'S RECORD:

Speakers of the Oregon House of Representatives when "Midnight Resolutions" in favor of the abandonment of the birthright of the school children of the state to large corporate interests were passed.
Made millions out of speculations in sheep, cattle and wool during the war, according to the Portland Telegram and other Republican newspapers.

CHAMBERLAIN'S RECORD:

Made good as Governor during the most trying time in the State's history, during the panic of 1907, when public holidays were declared to protect the estate against the exploitation of Wall Street.
Patriotically labored day and night as Chairman of the Military Affairs Committee of the U. S. Senate to help "Win the War", and you know the result.

THE PACKERS AND BIG INTERESTS

OR

DO YOU BELIEVE IN REWARDING FAITHFUL AND PATRIOTIC SERVICE.

FOR SENATOR Vote to Keep GEORGE CHAMBERLAIN on the Job and The Advancement of Oregon The Tariff is a Fake Issue

If there is anything wrong with the tariff, why did not the Republican Congress, which has been in power for nearly two years, remedy it by proper legislation? Did the Republican tariff help increase the price of your products prior to 1913? Do you remember when hay sold for less than \$5 per ton, wool for less than 10c per lb., and other farm products in proportion? Did the Republicans help the farmer then?

Do not let the "Argentine Beef" propoganda, engineered by the Swift and Beef Trust interests, in behalf of Stanfield, fool anybody. This stuff is being shipped in at heavy expense by the Big Packers and sent especially to the rural districts as a part of the Republican propoganda of misrepresentation and fraud. Why are the profiteering packers so strong for Harding and Stanfield?

A non-partisan Tariff Commission is working on a scientific and equitable adjustment of the tariff to prevent dumping of foreign products on our markets. But the real reason for the reduction in price of farm and stock products is the unsettled condition of the world markets and finances, due to the failure of the senatorial oligarchy to ratify the peace treaty, and not due to any tariff policy.
