

When the Hens Go On a Strike

When your hens don't lay, the cause is usually bad housing. Hens are like human beings; they will not do efficient work if they are housed in cold, damp, uncomfortable quarters—and you can't blame 'em.

A laying hen today makes money for you. An idle hen soon eats her head off. Give your hens a chance. Build them a comfortable place to live in this winter. Then watch them pay for it.

Free Building Helps

We can supply you with building plans for a great variety of structures, from hen-houses to modern homes. These are absolutely free to you. Whatever your building needs, come in and talk it over with us.

We can save you money.

District Attorney

The District Attorney is a State Officer and you will find the space allotted to that office, on the official ballot at the coming election, the last position on the State Ticket.

When you reach that point—

VOTE X 57 ROBERT D. LYTLE

It has not been my good fortune to heretofore serve Malheur County or the State of Oregon, in an official capacity; therefore in asking your consideration at the poles it is necessary that I refer you to my record, in other matters, in the County. I shall not attempt to give you details but ask that you make inquiry regarding me; inquire into—

My daily life in business;

My daily life outside of business;

My record and standing in the Courts and in the Bar Association;

My record as Government Appeal Agent during the war;

My record as president of the Malheur County Development League (over 400 members);

My record in aid of the establishment of the County Farm Bureau;

My record in all matters of moment and interest tending to the advancement and betterment of the county.

Your District Attorney is a very important officer; your liability as a taxpayer rests, to considerable extent, upon his ability and judgment; the reputation of your county depends upon his attitude in the enforcement of the Criminal Laws; he is not elected to select which laws he shall or shall not enforce but to carry out the will of the people as expressed by the statutes; his just and fair enforcement of the laws will deter the criminal minded from the commission of crimes, such as those against property, against the person and against morality and decency, and will guard your children from possible contact with criminal or unhealthful influences. His record should be carefully considered before he is instructed with that responsibility. I invite your inspection.

There is a move on foot to increase the salary of the District Attorney at the next session of the Legislature; the present salary is ample payment for the duties he is called upon to perform; I STAND PLEDGED TO OPPOSE ANY SUCH ACTION.

If elected, I pledge myself to be available at all times to advise the officers of the County in matters of law; to devote all the time necessary to the proper performance of all the duties of the office; to enforce the criminal laws of the State fairly and impartially, with equal application to all parts of the county, with the sole idea of promoting justice and protecting the public peace, health and morals and not with the purpose of "Making a Record" of convictions.

Examine my record; inquire about me and then, if you think I have the ability, judgment, energy and moral courage to conduct the office as it should be conducted—

As a Citizen of Oregon You Need the Port of Portland

If you owned a store you could not make a big success unless your business methods were as modern as your competitors'. Unless Oregon develops her shipping facilities she cannot expect to get her share of the world's business. It rests with the citizens of this state whether Oregon shall develop her wonderful resources and reach out for bigger markets, or remain practically an inland state.

To become a real port, a 30 foot channel must be dredged in the Columbia and Willamette Rivers from Portland to the Pacific Ocean. This will enable farmers, stockmen and lumbermen in the interior of the state to reach the markets of the world at a lower freight rate and greater profit to themselves.

The taxing and bonding power to make these improvements can be granted the Port of Portland only by the people of the state. You and every other citizen will benefit if you, on November second—
