All of the armies and navies of the world have found vaccination and inoculation of untold value in saving life, but the framers of the misnamed "Anti-Compulsory Vaccination Amendment," to be voted upon at the election November 2, discount all of that experience and testimony.

Dr. Harvey W. Wiley Says "Vote 313 No"

Speaking before the Members' Forum of the Portland Chamber of Commerce, Dr. Wiley, formerly head of the Government's pure food bureau and known as the "Father of the Pure Food Laws," declared that the title of the bill was a misnomer and that it should be called "a bill for the increase in mortality in children."

"Never before have I been in a community where matters pertaining to public health have been taken out of the hands of experts and put to a vote before the people," declared Dr. Wiley. "I do not think that a parent in this state who has children of school age will vote for this measure, because it means that the school children will not be protected against contagious diseases."

NOTICE OF QUARANTINE NO. 7

The fact has been determined by the President of the Oregon State Board of Horticulture that an injurious insect pest, the alfalfa weevil (*Phytonomus Posticus*, new to and not heretofore widely prevalent or distributed within or throughout the State of Oregon, exists in that portion of Malheur county, Oregon, hereinafter described.

Now, therefore, I, Chas. A. Park, President of the Oregon State Board of Horticulture, under the authority conferred by Section 2, of Chapter 246, of the General Laws of 1913, and Section 4, of Chapter 342, of the General Laws of 1915, do hereby quarantine that portion of Malheur County, Oregon described as follows: Beginning at a point in Malheur County, Oregon where the township line running between Range 41 and 42 East intersects the North boundary line of Malheur County, Oregon; thence South on said township line to the Southwest corner of Township 17 South Range 42 East; thence East on the township line running between township 17 and 18 South to the Southwest corner of Township 17 South Range 44 East; thence South to the Southwest corner of Township 20 South Range 44 East; thence East to the State boundary line between the States of Oregon and Idaho; thence Northerly following said boundary line along the meanders of the Snake River to the place where the North boundary line of said Malheur County intersects said Snake River, thence Westerly along the North boundary line of said Malheur County to the place of beginning. And from and after the publication of this notice in a newspaper published within the County of Malheur, it shall be unlawful for any person, firm or corporation to carry or transport any kinds of hay and straw, including hay, alfalfa products, straw, grass, forage plants, weeds or tule used in cattle cars or used for packing nursery stock of any kind or in any other way from said portion of Malheur County into or throughout any part of the State of Oregon, outside of said described portion of Malheur County except under the conditions hereinafter set forth, as follows:

1. Alfalfa meal or other finely ground products made from alfalfa hay, provided that the grinding of such products shall be done between the date of October 1 to April 1, may be shipped into or through any part of the State of Oregon under the following provisions:
 - a. That all such products shall be sacked and shipped in new, clean sacks.
 - b. That the product shall be stored in warehouses removed from alfalfa fields, alfalfa hay, or other suspected materials immediately after being ground, until shipped or otherwise disposed of.
 - c. Provided further that shipments of alfalfa meal or other such ground products designated for points in the State of Oregon shall be shipped to only such points as designated by the Oregon State Board of Horticulture or its duly authorized agent.
 - d. All warehouses and places where said product is stored to be at all times free of alfalfa hay, other hays, straw and all other means of contamination.
 - e. Each lot shipment must be accompanied by an official certificate signed in writing by an Horticultural Commissioner of the State of Oregon or his duly authorized agent attesting that "It has been inspected and passed in compliance with these regulations, and stating where it was ground, stored, inspected, and point of shipment.

FARMERS WILL FARM

The following extracts are worth while reading for the thought they contain. There is much truth in both. There is no question but that thousands of farmers remain on the land for reasons entirely aside from the money that is made. But should they? Is not a days work on the land worth just as much to the world as a day in the shops? The farmer should not be penalized financially because he has in his makeup a love of the soil and the things of the country.

"There is mystery, profound and unfathomable, in the soil and its processes. This is the anchor that will hold men in their devotion and service to it, as the mystery and grandeur of creation holds men in devotion and service to The Great Anchor. Men find in modern agriculture a challenge to great learning ability, and skill of high order. The soil is the Mecca of their desire, a desire that is soul fed.

The soil, the earth, is holy. It is the cradle in which God rocks his children, soothed and comforted by the music of created things—a thousand singing birds, rushing, tumbling streams, rustling leaves, and the countless contributions of members of Nature's choir that swell their voices into a world chorus, grand and harmonious." —Hoard's Dairyman, September 10, 1920.

Why Farm Lands Sell High

"City people as a rule consider the fact that farm land increases in value all the time as prima facie evidence that the farmers are all getting rich. But it is not earning power alone that causes farms to command high prices. A farm is more than a factory; it is a home. Few city people would sell their homes at prices that would enable the purchasers to realize profits out of the investments, on an earning basis. A good farm is about the safest investment in the world. But if those who do the work on it were paid the same wages for the same hours that prevail in the other industries, it would show a loss in average years, or the prices of things to eat would be higher than they are.—Agricultural Review."

CABLE TRUSTEESHIP MAY BE DEMANDED

Washington.—Some form of international trusteeship of the seized German cables may be insisted upon by the United States in the event no equitable distribution of the cables is agreed upon by the delegates to the international communications conference in session here.

Since disposition of the German cables among the five powers requires unanimous consent, officials said it was possible that no agreement other than an international form of operation might possibly be reached. This, however has not yet been proposed by the American commissioners and it was stated that it will not be unless it development that no other agreement was possible.

One of the American delegates confirmed reports that the United States, while not disposed to question Japan's title to the Island of Yap under a mandate awarded her by the peace conference, would most certainly insist upon the safeguarding of the rights of all nations to important cable communications centering about the island.

2-CENT LETTER FAVORED

Burlison Contemplates No Increase in Request to Congress.

Washington.—Postal estimates to be submitted to the coming session of congress, Postmaster-General Burlison said, will not recommend any increase in the 2-cent first-class letter rate, in connection with any plan of taxation revision, and will renew the department's previous recommendations for a 1-cent local delivery rate.

The postmaster-general estimates that a reduction of the local delivery rate from 3 cents to 1 cent would probably increase postal revenue rather than decrease it.

Foreign Diplomats Will Get Liquor.

Washington.—The customs service receded from its position with respect to the importation of liquor by the diplomatic representatives of foreign countries. Officials of the service said that not only could the diplomats bring liquor into the country, but that liquor consigned to them in shipment would have to be admitted.

Lever Act Held Partly Void.

Pittsburg.—The fourth section of the Lever act was declared unconstitutional by Judge Thompson in the United States district court here. He dismissed the government's petition for an order for removal of three railroad men to Chicago indicted there for conspiracy to violate the section ruled unconstitutional.
