"KNOWN FOR ITS STRENGTH AND STABILITY"

Good Recipes That Will Nerve Ten Potato Soup Foundation

2 qts. milk
6 tablespoons butter
6 tablespoons flour
Seasoning
2 cups cooked mashed potatoes
1/2 onion chopped
1 tablespoon salt and pepper
To prepare foundation scald milk and thicken with the flour and butter which has been heated and rubbed to a paste. Add mashed potatoes and seasoning.

This foundation may be used for other soups.

Corn or Pea Soup

Add one can of corn or peas to foundation.

Tomato Soup

Heat one pint can tomatoes, strain, add 1/4 teaspoon soda, and stir into foundation just before serving.

The Pacific Cooperative Poultry Producers organization is making good progress in signing up poultrymen. The organization contemplates marketing all the eggs produced in Oregon and southwestern Washington. Information about this organi-

The county fair was a good one. The weather man made things bad the last two days, but the show was there. The agricultural display and other exhibits were very fine and the program was all that could be desired.

THE GOPHER CAMPAIGN

The gopher campaign organized under the Farm Bureau is now going on successfully in the Malheur valley. Mr. Horn of the Biological Survey is in charge with a crew of men and gophers are being poisoned on a wholesale plan. The cost of this work will vary from 5 to 50 cents per acre for two applications of poison and counts indicate that over 90 per cent of the gophers will be killed. Half-inch cubes of sweet potato treated with a new tasteless strychnine preparation gives the best results. The baits are placed in the main runways by means of a probe.

THE HOT SCHOOL LUNCH

Pa warms the milk for the little calf, Ma heats the food for the chicks. They eat a hot dinner at noon-time too.

But my lunch is a scold as a brick.

We have a hot lunch at our school now.

There's cocoa or soup that's hot as the dickens.

We fill our cups as we pass along. They're decided we're as good as the chickens.

STATE CORN SHOW OFFERS OPPORTUNITY TO DISPLAY

The first Annual State Corn Show will be held in Portland from November 18 to February 27. Exhibits of ear corn will be made of corn grown in the State during 1920. Only one exhibit from any one person in each lot will be accepted. The following list of premiums shows the entries open to Malheur County exhibitors and the prizes offered. The best ten ear exhibit shown will draw a premium of fifty dollars.

The county agent wants to get a good number of entries from this county and will assist exhibitors in shipping and making entry of their corn. It would be well to select 150 ears of either white or yellow dent in order that a ten-ear exhibit and a hundred-ear exhibit may be selected from the best. In the flint and other dent classes, 20 good ears should be picked from which a ten-ear entry may be made. By consulting the score card shown below, good selections in accord with the card can be made.

Selections should be made just as soon as possible and the corn delivered at the Farm Bureau office at Ontario, from where it will be sent in one shipment to the Portland Show. Premium books and entry blanks are available from the Farm Bureau by writing, but all necessary information is contained below and the details of entry will be attended for you if you will send in the corn.

NOTICE OF SCHOOL MEETING
NOTICE IS HEREBY GIVEN TO the legal voters of School District No. 8 of Malheur County, State of Oregon, that a SCHOOL MEETING of said District will be held at High School, on the 23rd day of November, 1920, at 2 o'clock in the afternoon to vote on the proposition of levying a special district tax.

The total amount of money needed by the district during the fiscal year beginning on June 20th, 1921 and ending on June 30, 1922, is estimated in the following budget and includes the amount to be received from the county school fund, state school fund, special district tax, and all other moneys of the district:

Last Publication Nov. 18, 1920.

PAPERS ON PRODUCTION

One of the questions incident to the importation of dairy cows into a new dairying section has to do with the breeding back of the stock. The price of dairy cattle of like production varies. Registered cattle come much higher because of the papers which go with them representing careful breeding. On the average, these registered cattle will produce more than grades and are therefore worth more on that account.

But buying registration papers is one thing and buying production another. For the man who has no inclination to keep up the registration of the stock, or who is not by nature a breeder, money put into registered stock may be a very poor investment. The same amount of capital invested in good producing stock would provide a much larger herd upon which it would be easier to realize profits. In the hands of the average dairyman, a cow is worth just what her production makes her worth, regardless of the papers that are or are not with her.

WINNERS ATTEND FAIR

Three County Club Champions, Violet Lees, Evadne Cochran, and Glenn Rose were awarded the trip to the State Fair by the County Agricultural Association.

While at the State Fair these Club members were entertained in the Boys' and Girls' Club Camp under the supervision of Mr. J. E. Calavan, Field Worker for the Department of Education.

The boys and girls had a splendid opportunity of seeing the Fair, hearing prominent speakers, and getting acquainted with "Clubbers" from all parts of the State.

The Malheur County girls and boy enjoyed the trip across the State, and all of the Fair except the rain which was a decidedly new experience to them.
