YOU certainly want to save money, and you would like to have better bakings. Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs. Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality. It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

RAISES THE QUALITY—LOWERS THE COST OF ALL BAKINGS

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit. It is used by more housewives, domestic scientists and chefs than any other brand. That would not be the case, if it were possible to secure a higher quality leavener. It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet. Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Cream Cake Recipe
—3 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 cup butter, 1/4 cup granulated sugar, Yolks of 3 eggs, 1/4 cup cold water, Whites of 3 eggs, 1 teaspoon orange extract. Bake in the regular way.

THE THINKER

Back of the beating hammer
By which the steel is wrought,
Back of the workshop's clamor
The Seeker may find the Thought
The Thought that is ever master
Of iron and steam and steel,
That rises above disaster,
And tramples it under heel.

The drudge may fret and tinker
Or labor with dusty blows,
But back of him stands the Thinker,
The clear-eyed man who knows;
For into each plow or saber
Each piece and part and whole,
Must go the Brains of Labor,
Which gives the work a soul!

Back of the motor's humming,
Back of the belts that sing,
Back of the hammer's drumming,
Back of the cranes that swing—
There is the eye that scans them,
Watching through stress and strain,
There is the Mind which plans them—
Back of the Brawn, the Brain!

Might of the roaring boiler,
Force of the engine's thrust,
Strength of the sweating toiler,
Greatly in these we trust,
Back of these stands the Schemer,
The one who drives them through,
Back of the Job the Dreamer—
Who's dream at last comes true!
