Another meeting each month will be given to literary and social interests. The chairman of the standing committees were appointed and have commenced work. The joint program and social committee has an important work to do and must have the cooperation and interest of the whole community.

**MODERN CRANKCASE CLEANING SERVICE**

*"for clean oil in a clean engine"*

*"See what we found in your crankcase oil"*

**THIS** lens shows some of the dirt that can be found in any crankcase after a few weeks of driving—road dust, carbon and fine particles of metal. Such dirt circulates with the lubricating oil through the engine, together with gasoline that escapes past the pistons and dilutes the oil.

Have the dirty, diluted oil in your crankcase drained out—*now*—before unnecessary wear begins. We can do that best for you with Modern

Crankcase Cleaning Service—convenient, quick, economical. We use Calol Flushing Oil, the scientific, thorough flushing agent which does not contaminate the fresh oil. We assure proper lubrication for your engine by refilling the cleaned crankcase with Zerolene of the correct grade.

Make a regular habit of Modern Crankcase Cleaning Service. It gives better engine performance and longer life to your car.

**WOMEN'S CLUBS AID CHILDREN**

The national federation of women's clubs have joined hands with the U. S. and state college extension in work to correct the evils brought about by improper feeding of children. The club women will help in announcing, advertising and planning the campaigns to find which children are underfed in any community, and back up the home demonstration agents in planning better nutrition and getting plans accepted by the mothers. The serious need for this work in Oregon is seen in the large ratio of underweight children found in the few communities so far surveyed by the extension service.
