a cash return to her owner. Butter fat is ready money.
Dairy products are a continuous crop that never fails.
Put the Dairy Cow on the job.

John Deere Built It For The Fordson

We can furnish you with the plow that John Deere built especially for the Fordson Tractor.

It is made of New Process John Deere steel.

That's why it is extra light and strong.

It's the lightest tractor plow you ever saw—weighs less than the average horse-drawn sulky.

It is tremendously strong—beams are guaranteed not to bend or break—all frame connections are hot-riveted—no loose joints—no give anywhere—it's the plow you can depend on to stand the strains of utilizing Fordson power under all plowing conditions.

Because of light weight and clean scouring qualities, it pulls

extremely light. It's a real fuel saver. See it at work once, and you will appreciate how light it pulls.

Its correct line of draft, when hitched to the Fordson assures ideal penetration.

Its genuine John Deere bottom corners, wear well and make good seed beds.

Its quick detachable shares are strong and close fitting. Loosen one nut to remove a share; tighten the same nut and the share is on tight.

Its simple, strong power lift works perfectly. Lifting mechanism moves only when the plow is being raised or lowered—no useless wear.

If you are planning to buy a Fordson be sure to see this plow. Ask us to show you the John Deere No. 40—the plow that fits the Fordson.
