THE WAY TO HEALTH

BY
CHIROPRACTIC SPINAL
ADJUSTMENTS AND ALLIED
SCIENCES

Since coming to Ontario about ten months ago I have treated many cases of acute and chronic diseases. Many of these have come to me after trying other methods and not a few have been pronounced incurable by the Medical doctors. In nearly every instance these cases have yielded to Chiropractic Spinal Adjustments. A few cases were not willing to stick but those who did have been more than paid for their time and money.

I desire to take this opportunity to thank the people of Ontario and vicinity for their confidence in Chiropractic. My practice has steadily grown during these few months. I have felt the need of help in my office. It gives me great pleasure at this time to announce that Dr. Wm. Hale is now associated with me in my work. Dr. Hale is not only a trained Chiropractor but is a graduate of one of the best Electro-therapeutical Schools of the country. With the addition of Dr. Hale to the office we are installing some of the best Electro-therapeutical equipment that can be had anywhere. This equipment consists of one large 5000 candle power Radio-Vitall lamp, one HIGH FREQUENCY machine with all modalities, also one McIntosh Polysine Generator from which we can obtain all modes of the Galvanic and Sinusoidal currents.

With our present equipment we are able to handle the great majority of cases from which people are suffering. If your case is one that we cannot help we will tell you and advise you what we think is best. We will be glad to show you our equipment and explain our methods of treatment. It will cost you nothing to investigate.
