

JAMES OLIVER CURWOOD'S
GREATEST STORY OF NORTH-
WESTERN LIFE—

"NOMADS OF THE NORTH"

GREATER THAN BACK TO GOD'S COUNTRY; GREATER THAN ALL OTHER PHOTOPLOTS OF LIFE IN THE FAR NORTH—A RECORD BREAKER FOR THRILLS AND ROMANCE.

MAJESTIC SUNDAY
MONDAY

PIRATE SHIP AGAIN SAILS THE SEA IN "TREASURE ISLAND"

Maurice Tourneur Buys Replica of "Hispaniola" For Film Version of Story

The "Hispaniola," the vessel in which the stout-hearted treasure-seekers in Stevenson's "Treasure Island" sailed the Main and fought pirates and mutineers, lives in Maurice Tourneur's film version of the classic of adventure, which will be shown at the Majestic Theatre on Friday and Saturday Next. For many weeks before the making of the picture, Mr. Tourneur sought for a replica of the treasure-ship. Finally a barkentine called the "Fremont", long since abandoned as unseaworthy, was located and arrangements made with the owner to make repairs and use it.

The "Fremont" fits Stevenson's description of the "Hispaniola" in every detail. It was built originally to transport slaves from Africa and made two such voyages. Later it became a pirate ship and as such was seized by the government, which for many years used it as a patrol boat. Mr. Tourneur equipped it with all the gear of the pirate days. Filled its decks with swarthy turbaned buccanera, and rechristened it "Hispaniola" for its cruise in front of the clicking motion picture camera.

"Treasure Island" has been given a truly remarkable production as a photoplay. Shirley Mason is seen as Jim Hawkins, Lon Chaney is Pew and Merry, and Charles Ogle gives an excellent performance as Long John Silver. It is a Paramount Arctcraft picture.

COMING SUNDAY — A GREAT PICTURE OF THE GREAT NORTH

More than the usual interest attaches to the announcement of the forthcoming engagement of James Oliver Curwood's "Nomads of the North" at the Majestic Theatre, Sunday and Monday. All those who saw "Back to God's Country" and "The River's End," masterpieces from the workshop of this author, realize they are justified in expecting something extraordinary in the latest picturization of his brand of outdoors, Far North fiction. This film is an Associated First National attraction and it is said to be one of the very best features ever offered by this organization. The three high-lights in the production, according to advance information, are: the remarkable performance of animals including many wild ones in general and a pet bear and dog in particular; a forest fire which is accredited with setting a new high mark in realism and thrills; and a romance of all-absorbing qualities quite different than the ordinary run of love affairs so universal in the

movies. The cast which has been selected to play the various picturesque roles in this intense drama of the wildest of God's country includes such stars as Betty Blythe, Lon Chaney, Lewis Stone, Melbourne McDowell and Spottiswood Aitken.

Friday and Saturday

MAURICE TOURNEUR PRESENTS "TREASURE ISLAND" BY ROBERT LOUIS STEVENSON A Paramount Arctcraft Picture

He had come at last! The seafaring man with the black spot!

Blind—tapping with his stick on the tavern floor—he seized little Jim with his claw-like hand. "Lead me to the Captain."

The black spot! And Bill Bones found with his throat cut!

Then away to Treasure Island, with a yelling crew of buccanera, to fight for a chest of gold!

One of the best loved stories in all literature. Thrillingly Re-created! With a huge cast including Shirley Mason and Lon Chaney.

It's All in the Way the Shovels Work

A cultivator is hoeing-capacity greatly multiplied. The shovels take the place of hoes. They work the soil, destroy weeds and make a mulch, according to the control you have over them through the mechanism of the cultivator. Complete and ready control of the way the shovels work is a great feature of the

JOHN DEERE K C CULTIVATOR

The special lever control of this machine enables you to drive into the field, stay on the seat and make all necessary adjustments with levers.
Rigs spread equally at front and back when spaced with the spread lever.
Shovels enter the ground level and continue level as they are lowered with the depth levers.
Deeper or shallower adjustment of front or rear shovels can be made with the tilting lever—a big advantage when cultivating up or down slope.

No need of raising or lowering shanks to make shovels run at even depth.
Quick dodge on crooked rows can be made—a light push on the foot levers guides the wheels and shifts the rigs.
Beams are always parallel—shovels always face squarely and cut full width—no uncultivated spots, undesirable ridges or deep trenches are left.
The John Deere KC runs steady and pulls light. It is built the John Deere way throughout—every part strong and substantial.

Come in and see the John Deere KC

"You Save Money" says the Good Judge

And get more genuine chewing satisfaction, when you use this class of tobacco.

This is because the full, rich, real tobacco taste lasts so long, you don't need a fresh chew nearly as often.

And a small chew gives more real satisfaction than a big chew of the ordinary kind ever did.

Any man who uses the Real Tobacco Chew will tell you that.
