

KINGMAN KOLONY

Miss Eulalia Shaffer is expected home Wednesday from Weiser Institute, where she has attended school the past year.

R. McCreary returned Monday from a sojourn at the Vale Sanitarium.

Encouraging word was received this week from Mr. Harry McGary, who was called east by the serious illness of his mother.

Flock Bros. are baling out two cars of hay from the Overstreet stack yards this week.

Crops are in excellent condition, the recent rains lightening the irrigation labor to a great extent.

The official report of rain fall, for the past week was 1 1/2 inches.

Ice cream and a musical program at the Kingman Kolony school House the evening of June 4. Under the auspices of the young people's class. Everybody invited.

Last Thursday evening the losing side in the recent membership contest of the Y. P. C. furnished the evening treat to the winners. A good time was reported.

Wednesday evening the tax payers will be given an opportunity to express themselves as to whether or not we furnish second year High School work in our next year's school program.

OREGON SLOPE

Mrs. Jonas Brown, local librarian, has received a shipment of books from the County Librarian and will have the books ready for distribution locally as desired.

Word was received here last week of the birth of a fine baby girl named Sarah Louise, at the John Haverfield home in Weiser. Mrs. Haverfield was formerly Miss Mabel Smith of the Slope.

Mrs. Jim Wilson went to McCall Monday where she and her husband will spend the summer.

Mr. and Mrs. Tomlin and family spent Sunday at the Ben Tomlin home.

In spite of the rain last Friday there were about seventy-five gathered at the Park school house for a picnic dinner in celebration of the last day of school. The ball game and races were postponed because of the rain but a pleasant afternoon was spent with indoor games.

Several from here attended the greatly enjoyed High School play, "The Rose of Plymouth Town" given by the members of the Senior Class at the High School building in Payette Monday evening.

Work has been slow on the Highway the past week on account of so much rain but with the return of good weather the work will be pushed rapidly.

MONEY MULTIPLIES RAPIDLY

There is nothing that multiplies so rapidly as money that is properly invested, where it grows like good seed planted in rich soil. For safety and a fair yield, deposit with the Ontario National Bank.

Crater Lake, near Medford, in Southern Oregon— one of the world's most beautiful lakes.

The Sapphire Blue of Crater Lake

WORDS cannot adequately describe the beauties of Crater Lake. Its sapphire-blue coloring, its picturesque island and its gorgeous setting combine to make it one of nature's wonder spots.

Crater Lake is in the southern part of Oregon and is accessible by automobile from the Pacific Highway.

And motorists may plan a trip to Crater Lake with assurance because Red Crown Gasoline may be obtained all along the route—from north or south.

Make your trip with "Red Crown"—the gasoline of quality—the gasoline with a continuous chain of boiling points.

Look for the Red Crown sign on service stations and garages.

STANDARD OIL COMPANY (California)

THE U. S. ROYAL CORD

A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season. The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

How you can measure tire value in 1921

"Any U. S. Tire is a universal full money's worth."

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hard-pan car owner who sticks year in and year out to a standard brand as the only "ational economy."

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no forced selling of any U. S. brand—no shipping of tires from one part of the

country to another to "find a market."

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.

"The different tire views that come out in a chance talk."
