says the Good Judge

That gives a man more genuine chewing satisfaction than he ever got out of the ordinary kind. Smaller chew, lasts longer—so it costs less to chew this class of tobacco.

And the good, rich tobacco taste gives a world of satisfaction.

Any man who uses the Real Tobacco Chew will tell you that.

## FIRST SETTLERS DUE IN STATE JULY 19

Baker County All Ready To Show Their Possibilities To Homeseekers—They Will Visit Malheur County Too To View Lands

PORTLAND, ORE., May 22—(Special)—July nineteenth will mark the date when the first trainload of homeseekers from the middle west will start from Omaha to Oregon, according to announcement made by the executive committee of the Oregon state chamber of commerce following receipt of a long telegram from William Hanley from Omaha. This date was selected by the heads of the agricultural department of the Union Pacific system at Omaha and confirmed here by the executive committee of the state chamber.

Hanley, a director of the state chamber, is in Omaha with J. R. Heuring, colonization expert who is working with Union Pacific officials in grouping together homeseekers to be brought to Oregon in a body. The agricultural department of the Union Pacific will swing its whole forces into the drive to send settlers to Oregon, it was announced.

Following notification as to the results of the conference in Omaha, Secretary Quayle of the state chamber sent out letters to each commercial organization of the state, urging them to prepare for the coming of the settlers, first, by obtaining listings of lands in their districts at prices based upon careful appraisal, and second, to form, if possible, a corporation of financing—commission composed of the leading business men of the community, for the purpose of buying up these available lands, or obtaining options upon them, under terms that will permit the settler to make good.

"In regard to preparing for the reception of the settlers when they arrive in Oregon," said Secretary Quayle, "Eugene business men have already perfected a tentative organization, the purpose of which is to buy or obtain options on lands available for the settler, and resell these lands on easy terms and long time payments. The Crook county chamber of commerce was recently formed and is already at work preparing for the homeseekers. The Baker county chamber of commerce has a committee working on plans for taking care of settlers when they arrive in Baker.

"These communities are to be commended for the promptness with which they are meeting the situation, and I am certain that all other communities will do their share. The state chamber can only bring the settlers to Oregon. It is up to the individual districts to take care of them when they arrive and see that they are located where they can make good."

Many applications for admission to the special homeseekers party are already on file from middle western farmers according to Secretary Quayle. A recent letter from Gray, Indiana, stated that three representative citizens of a large colony of prospective settlers had been selected to join the party.

### ELECTRIC JUICE KEEPS FROST FROM VEGETABLE GARDEN

A. L. Holland, who has a farm on Morton Island, has a new and unique way of protecting his garden from early spring frosts. He is said to have had, as a result, many early vegetables. Along his rows of radishes and peas, etc., he has stretched an electrical wire of the famous Nichrome type position, and thru it carried an electrical current, thus producing heat enough to easily protect against frost. The cost is said to be very light and the experiment has proved such a success that Mr. Holland has decided to put in much early garden and a big frost protecting wire next year.

## STARFIELD BILL TO HELP LIVESTOCK MEN

Measure To Be Introduced Provides For Loans By The Government and Purchase of Paper

Telegram Washington Bureau WASHINGTON, May 25—Senator Robert N. Stanford will probably introduce a bill today which has been approved as a whole by the war finance corporation, providing for loans to cattle and sheep raisers by the government and fixing the purchase of these loans or paper by banks. The text of the bill, of which the senator will try to secure early passage through the senate with the aim of relieving sheep and cattle men of the Pacific Northwest, follows:

"The secretary of the treasury is hereby authorized and directed to advance or lend to the war finance corporation all funds accrued or accruing from the franchise tax provided in the federal reserve act and acts amendatory thereto.

"The war finance corporation shall execute and deliver to the secretary of the treasury its certificates of indebtedness therefor bearing interest at the rate of 5 per cent per annum, payable annually. The advances or loans shall be made as requested by the war finance corporation and shall be payable on or before the dates of maturity specified in the certificates of indebtedness.

**May Purchase Paper**  
"The corporation is hereby authorized and empowered to purchase from any state or national bank, or from any livestock loan company which is now duly organized under the laws of any state and authorized to make loans upon livestock paper taken by such bank or company for loans made to growers, breeders or feeders of cattle or sheep.

"No paper purchased under the provisions of this act shall be for

a period of less than six months or longer than two years.

"The corporation shall not buy such paper from any such bank or company to an amount greater than four times the paid up capital and surplus of the selling bank or company.

"All loans or paper purchased under the provisions of this act shall be indorsed or guaranteed unconditionally by the bank or company selling the same to the corporation. In addition to the indorsement or guarantee of the selling bank or company all security taken by the selling bank or company shall be deposited with the corporation and such security shall be a first lien on the cattle or sheep in form approved by the corporation.

**Purchase Restricted**  
"No loan or paper purchased by the corporation under the provisions of this act shall exceed 75 per cent of the market value of the cattle or sheep pledged at the time such loan or paper is purchased.

"Loan or paper purchased under the provisions of this act shall bear interest at the rate of 7 per cent, payable annually or at maturity if made for less than one year.

"The corporation shall purchase such paper on the basis of 5 1/2 per cent per annum and allow or refund to the selling bank or company the difference between the 7 per cent paid by the borrower and the 5 1/2 per cent charged to the selling bank or company by the corporation.

"Any paper purchased by the corporation as herein authorized may be renewed or extended wholly or in part in the discretion of the corporation and the proceeds of any paper collected may be reinvested by the corporation as herein authorized.

"All acts or parts of acts inconsistent with or in anywise contravening the provisions of this act are hereby repealed."
