"Perhaps You Don't Know" says the Good Judge

How long a little of the Real Tobacco Chew will last. Nor how much genuine chewing satisfaction the full, rich real tobacco taste will give. Ask any man who uses the Real Tobacco Chew. He will tell you that this class of tobacco will give more satisfaction—and at less cost—than the ordinary kind.

Put up in two styles
W-B CUT is a long fine-cut tobacco
RIGHT CUT is a short-cut tobacco

Makes canning easier

CANNING is a real pleasure when you have a good oil cookstove. Just light the burner and the steady, clean, intense heat is driven directly against the cooking. The kitchen stays clean and comfortable.

To insure best results use only Pearl Oil. Pearl Oil is clean burning and uniform. Refined and re-refined by a special process. Most economical to use.

For sale by dealers everywhere. Order by name—Pearl Oil.

PEARL OIL
HEAT AND LIGHT

Lake Keechelus—in the heart of the Cascades, Washington

Through the heart of the Cascades

The Gasoline of Quality

ON the motor road from Seattle to Tacoma and the East, the motorist passes through many points of unusual scenic interest.

Lake Keechelus is one of these. It is over six miles in length,—having the appearance of a great river, and is situated at an elevation of 3,000 feet in the very heart of the Cascade range.

Motorists will find this region a most enchanting country dotted with beautiful lakes and mountains and huge fir, spruce and cedar trees measuring in some instances six to eight feet in diameter.

And all along the route the motorist can get Red Crown Gasoline—the all-refinery motor fuel that insures quick starting, rapid acceleration and more power.

Look for the Red Crown sign.
