While they secured no definite information the job hunters were encouraged and not at all dispondent. R. W. Swagier accompanied them on the trip.

Mr. Venable who years ago was a Payette boy and later editor of the Payette Independent before joining the Statesman staff from which he went to the senatorial secretaryship, is now a Payette business man. Like all men who have been under the spell of the big political game in Washington the lure of the capital is still strong with him and Mr. Venable is uncertain whether or not he will remain in the West or go back to the big show.

ONTARIO HEN STEPS UP TO LAY CLAIM PLACE IN BIG EGG SUN

Ontario has a number of hens who are believed to be worthy of a place in the big egg sun. Last week a White Leghorn hen belonging to J. A. Bartlett laid an egg which measured eight inches around the long axis, and six and one quarter the other and weighed just a shade under four ounces. Not long ago a hen owned by Lee B. Cockrum presented its owner with one that was just a shade smaller both ways, being seven and three quarters by six inches and weighed three and three fourths ounces.

PEEVISH PERSON'S WILD HEAVENS THROWS GAME AWAY

away in the first when with two wild heavens to the bases he left two men on from whence they scored on Roy Smith's first hit. Roy was the clouting star of the afternoon with three safeties. In fact he and Oliver were the only ones who hit Pension more than once.

The game was marred slightly by the baby work of Pension who showed constant displeasure at the umpiring. Even the Emmett fans were disgusted.

Ontario goes to Caldwell Sunday for a two game series and play here with some independent team a week from the following Sunday, since Nampa declines to return to Ontario after the trimming accorded her here two weeks ago.

ROOSEVELT PAID HIGH TRIBUTE TO STEFANSSON

Theodore Roosevelt said to Stefansson, the famous Arctic explorer who is to lecture at Chautauqua this year: "Stefansson, there are few men in the world whom I envy, but you are one of them."

Harpers Magazine said recently: "All the world's heroism has not been concentrated on the battlefields during the past years. While the war has engrossed the world's attention, this explorer has dared and won important bloodless battles against snow and ice and darkness. For five years Vilhjalmur Stefansson was extending the boundaries of the scientific world, his progress only guessed at by those who waited eagerly for news of him. For over a year he was given up for lost until the good news traveled southward that he was still alive."

COULD MAKE GROUP OF WOODEN INDIANS SING

That's What They Say About Walter Jenkins, Song Leader.

That community singing is "good medicine" for every community is the belief of Walter Jenkins, prominent community song leader who comes to Chautauqua on the fifth day. He says, "When we sing together our moods draw closer together. We feel alike; we think in terms of the group."

Someone has said that "Walter Jenkins could make a group of wooden

Indians sing." He certainly possesses the uncanny ability of putting every audience in good humor. During 1917 and 1918 he was Northwest Song Leader for the Army and Navy Camps and since that time has been Community Song Leader of Portland, Oregon. During his program Mr. Jenkins will also present a few baritone solos.

ABUNDANT FEED CERTAIN FOR MALHEUR COUNTY STOCKMEN

Although there will be less than a normal crop of alfalfa harvested in the county this season owing to the plowing done by some of the farmers who could see the light, and the depredations of the weevil, the stockmen have no worries as to where they will get feed for the interior ranges, pastures and meadows will yield the most abundant crop of feed for many years. Cattle and sheep are fatter than they have been for years at this season of the year and the prospects look good for the stockman who needs cash, to ship a lot of stuff, grass fat, instead of having to put it into the feed lots or sell as feeders.

From the cattle sections come reports that there will be more than sufficient feed for winter needs, some hay growers in the interior being in doubt about it paying to harvest all of their crops. After the long grind of the past three or four years, things certainly look better to livestock men but hay farmers who depend on the sale of their crops are not feeling so optimistic now that conditions have shifted from the war time status.

Lee Alexander of the Independent Market sales force left Monday for a two weeks visit with his parents at Durango, Colorado.
