

Women love Jonteel

They love the odor. Perfumed with flowers from the Far East, from the sunny South, from many distant lands,—the wonderful new odor of 29 flowers. You, too, will love it. And you'll find just a touch of it in FACE POWDER JONTEEL—a powder of super fineness yet heavy enough to stay on.

You'll find it in Combination Cream Jonteel, a cream that not only provides a perfect powder base, but which adds a delicate clearness to your complexion.

You'll find it in Talc Jonteel Soap Jonteel and the many other delightful requisites that complete this famous toilet line.

Compact face powders and rouges in shades to match your complexion.

Every Potato Means Additional Profit

When the price per bushel you receive for your potatoes is low, good profits can still be made by saving time and labor and by getting every potato in the field. It costs you no more to harvest completely, and you get the extra dollars for your increased crop, if you use a

HOOVER POTATO DIGGER

The Hoover Potato Digger digs up all the potatoes in the field and piles them in neat rows where they can be handled with minimum labor. This digger has proved to be an especially good investment to all potato-growers who have used it.

The shovel is of best quality high-carbon crucible steel and shaped so as to gather the potatoes with the least possible loss. No danger of cutting the potatoes to the extent that a plow or hoe does. Stone guards can be used in stony ground. You can raise and lower the shovel while the machine is in motion. All adjustments are made from the seat by convenient levers.

The vine-separating rear rack has a backward and forward motion that sifts out all dirt and deposits the potatoes in a compact row on clean ground directly at

the rear of the machine, while the vines and trash are deposited at one side.

Six roller bearings and wide tires on the wheels assure light draft.

Patented Double-Action Front Truck permits the digger to be turned in a very short space.

Solid steel frame, strong main sides of Bessemer steel, beams of best quality charcoal malleable castings, and steel chains and hardened steel sprockets that greatly resist wear.

Don't fail to see the Hoover Potato Digger before you harvest your potato crop; its use means greater profits. Also ask us about Hoover Engine Drive Potato Diggers—two-horse machines under all conditions, and any other potato tools you require.

GIRLS DEMONSTRATE WORK AT CLUB PICNIC AT WESTFALL
Mrs. Russell Zimmerman Given Credit For Holding Organization Together—Westfall Folks Now Approve Effort
The Westfall Sewing Club held a very enjoyable picnic on Friday, August 12. The people of the community gathered at the Fry home near Westfall where a picnic dinner was served.
Five of the Club Girls had completed their sewing and their work was placed on exhibit. The awards were announced after dinner and Iola Presley received first, Mabel Pfeiffer second, and Edna Claypool placed first on her note-book. All of the girls did good work and they are to be commended on their ability to finish the project which they started.
To Mrs. Russell Zimmerman belongs the credit of putting over this good piece of work in the Westfall community. As local leader, she gave up every Wednesday afternoon and helped the girls with their work. She organized the club last spring and has successfully carried it through the project year. At the start most of the people in the community were indifferent and some even antagonistic toward club work. They did not understand the objects of club work and could see no reason why Mrs. Zimmerman devoted so much time in helping the girls. Through her efforts an increasing interest is being taken in the work and a few of the people have expressed the desire to enroll the boys in some of the various projects and give them the advantages which other boys in the county are receiving.
