CRANBERRY IS ONLY FRUIT THAT TRAVELS EAST TO WEST

Columbia River Crop Canning on Market Soon—Million Dollars Invested in Bogs Near Ontario

The cranberry is the only fruit grown in the United States whose course of travel is from east to west. Realizing that this state is a fruit-producing state, men of broad vision in the district at the mouth of the Columbia River entered the cranberry game and have developed it to such an extent that at the present time it is supplying a great many of the cranberries used on the Pacific Coast, but there are still berries shipped in from the East.

Land that was considered waste has been made productive. The total investment in land and improvements in the district amounting to a million dollars.

Those members of the Oregon State Editorial Association who were fortunate enough to visit the cranberry bogs in Clatsop County, Oregon, last fall were astounded at the magnitude of the industry.

The cranberry industry on the Pacific Coast, while new, already occupies a firm place among the horticultural industries of the Northwest. Berries of very fine quality are grown in Oregon and Washington, in the district at the mouth of the Columbia River. Here is a great frost-free zone, with abundant rainfall, having a climate admirably adapted to the growing of cranberries.

Picking will commence the second week in September and will extend over a period of four to six weeks. Many people are attracted to this district by the fact that they can earn good wages picking cranberries, and at the same time, enjoy the mild weather of the Oregon Coast climate in September.

To the rule that the Oregon fruit is the best grown anywhere, the cranberry is no exception. It is a very luscious and well-flavored fruit which has made a great impression wherever introduced. There is a prejudice in some quarters in favor of the eastern cranberry. This is due more to habit than reason. The cranberry grown on the east shores of the United States is indeed a wonderful fruit, but the cranberry grown on the Pacific Coast is of equally good quality and requires less sugar when put up. The industry is well organized and the fruit is marketed co-operatively. Berries will appear on the markets shortly after the picking season is completed.

The cranberry associations of the coast are urging the purchase of cranberries by the housewife early on account of the fact that there is a shrinkage in berries as the season progresses, and the thrifty housewife, by making an early purchase, saves just that much. Cranberries canned early in October last just as good on Christmas day as cranberries cooked on Christmas Eve.

PAID LOCAL ADS

Oregon Journal delivered by carrier Daily and Sunday, 65c per mo. Leave order at Turner's News Stand.
 FOR SALE—Warehouse 40x80, opposite depot on railway tracks. Apply H. R. Udick. 33-tf.

ANNOUNCEMENT
 Mrs. A. Stewart Brown desires to announce that she has been appointed Cosetiere for the Spirella Company. For appointments, phone 25-J. 38 tf.

When you come right down to reason, what is there to "discount" tires—

THE next time a friend comes to you all excited about some wonderful tire bargain—ask him how much value he ought to get for each dollar of tire money.

It's astonishing that any car owner today should not know all the tire service he is entitled to.

Nor how to check up between the economy of par quality on one hand—and big discounts, surplus stocks, discontinued lines and retreads on the other.

For two years U. S. Tire makers have been telling the American people all about tires.

They have laid open the tire business from every angle.

They have always led the fight for better tires.

They have consistently maintained quality first standards with certain economy for the tire buyer.

They have established 92 Factory Branches all over the country. Perfecting U. S. distribution so that you get a fresh, live tire every time you buy a U. S. Tire.

So when a man once decides on U. S. Tires he knows what he is getting in quality—service—economy.

In support of his own judgment he gets the pledged word and reputation of the largest and most successful tire concern in the world.

A sound reason for the fact that you see more U. S. Tires on more cars than ever this year.

The U. S. CHAIN TREAD
 One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.

"You get a fresh, live tire every time you buy a U. S. Tire."
