

OREGON SLOPE

Sunday School, Sunday at Park School at 2 P. M. Preaching services at 3 P. M. Everybody welcome. Mr. and Mrs. Cruise and son, Jerry, Mr. and Mrs. Troxell, and Mrs. David Howard returned Saturday from a two week's auto trip to the coast.

Miss Manie Howard spent the week end with her aunt, Mrs. J. Jensen.

Carl Hawkins has been seriously ill the past two weeks with typhoid fever.

Chas. Lias and R. D. Rogers are spending the week in the hills hunting and fishing.

Mr. Wisdom returned Wednesday from Hot Lake, Oregon.

Mr. Mitchell of Sioux City, Iowa, returned to his home Thursday after having spent the past two weeks with his daughter, Mrs. C. A. Karst. A. M. Johnston is seriously ill at this writing.

Mr. and Mrs. F. Shake entertained Mr. and Mrs. C. M. Atterbury at 6 o'clock dinner Sunday. The occasion being a farewell for Miss Helen Shake, who is leaving for California to attend college, and the birthday anniversary of Miss Dorothy Shake.

Miss Stella Taylor spent Tuesday and Wednesday with Miss Myona Deering of Fruitland.

Mr. and Mrs. B. B. Linkons of Welser were Sunday dinner guests of Mr. and Mrs. Robert Linkons.

Mr. and Mrs. C. C. Wilcox, and son Bobbie, were guests at the Roy Burrell home Sunday.

Mr. and Mrs. Otto C. Miller entertained Tuesday evening in honor of the birthday anniversary of Irwin I. Culbertson and the wedding anniversary of Mr. and Mrs. W. F. Vincent. Three tables of 500 were enjoyed throughout the evening. At a late hour the birthday luncheon was served. The color scheme for the table was carried out in red and white, the table being lighted with four large red candles with smaller ones at each place. The guests were Mr. and Mrs. O. E. Chapman, Mr. and Mrs. C. C. Wilcox, Mr. and Mrs. Tom Heslop, Mr. and Mrs. W. F. Vincent, L. L. and I. I. Culbertson.

Mr. and Mrs. C. M. Johnson were Sunday dinner guests at the Grace home.

Heber Moss of Payette is spending a few days at the Tom Heslop ranch.

Miss June Colbs of Baker City arrived Monday for a short visit with her sister, Mrs. Geo. Sullens. She expects to attend high school in Ontario the coming year.

Mr. Geo. Lattig left Monday for McCall.

Mr. and Mrs. Arthur C. Miller were Sunday guests at the Osborne home.

Mr. Fred Van Petten and wife were business visitors in Welser, Thursday.

Lee Brown and A. A. Gutteridge attended the drainage meeting held at Vale, September 9th.

Miss Mildred Frost left Friday for Drewsey, Oregon, where she expects to teach the coming winter.

Miss Helen Northrop left Monday for Gooding, Idaho, where she is employed in the school for deaf children.

School opened Monday, with the primary pupils in a fine new school building, while the older students are preparing to do better work this year in a room made as good as new with paint and mureco, which was so badly needed.

The annual Community Fair and picnic was held at the Arthur Miller grove last Thursday. A large crowd was in attendance. The exhibits were fine, the articles made by the girls sewing club, and the pigs exhibited by the boys pig club, deserving special mention. After a big picnic dinner, a good program was enjoyed. F. M. Northrop, our public speaker of whom we are all proud, made the welcome address. Short addresses were made by Mr. Barnes, regarding the co-operative wheat selling plan, Professor McDonald, superintendent of Ontario schools, and Valvin Keller of Payette. The program also included music by one local orchestra and ladies quartette. The evening was spent in dancing at the pavilion.

OWYHEE NEWS NOTES

Mr. and Mrs. Claude Smith and baby and Mr. and Mrs. Alvin McGinnis and son James, returned home from a camping trip to Logan Valley Monday evening. They reported getting all the fish they could eat and shot a deer also.

Mr. and Mrs. J. S. Fleber and family of Boise are guests at the Caperton home this week.

Manager J. F. Lakness, of the Malheur Home Telephone Company and lineman Floyd Linder were in Owyhee looking the lines over, tightening wires etc., Thursday.

School will be dismissed next Thursday in order that the children may participate in the county fair at Ontario, it being Club Day. The five members of the poultry club have sent in their final reports and intend to make exhibits at the fair.

Mr. and Mrs. T. M. Lowe motored to Vale Friday. Miss Lillian Davis went with them to spend the week end at home.

Mr. and Mrs. Chas. Bradley and family of Nyasa, spent the week end at the farm.

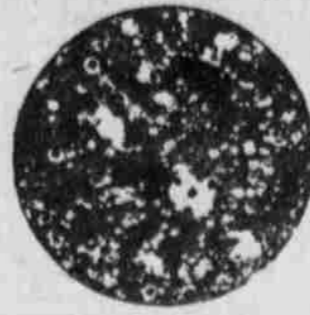

Mr. and Mrs. Victor Marshall, of Wilder were week end guests of Mr. and Mrs. C. E. Sweizer and Mr. and Mrs. Ose Schweizer.

OREGON STATE FAIR:—Salem, Sept. 28 to Oct. 1—A wealth of agricultural, livestock and industrial displays, an excellent racing program, high class amusement and attractions, and ideal camping grounds.

A. H. Lea, Manager, Salem, Or. 38-42.

Drawings made from actual photographs of rubber magnified 200 times

Ordinary tire rubber
The white areas are "lumps" of unevenly mixed substances. Every "lump" is a weak spot that reduces mileage.

Crolide Compound Rubber
—has no large "lumps." Notice how finely divided the particles are. This even texture is what makes Thermoid Tires wear so long.

Unseen "lumps" in rubber
—the hidden weakness of ordinary tires
A new rubber compound that eliminates them

MILLIONS of minute "lumps," unblended masses of "dead" material, seen only under a magnifying glass—this, it has been found, is what causes the weakness in ordinary tires.

"If even-texture rubber—rubber without 'lumpy' formations—could be produced," said W. D. Pardoe, well-known rubber expert, not long ago, "it is safe to say that tires could be made to give 15% more wear."

These "lumpy" formations are due to the failure of the strengthening materials to mix evenly with the rubber. Instead of producing an even, close-texture compound, "lumps" of unmixed substances are formed. The result is thousands of minute weak spots in every cubic inch of the tire.

The photo-micrographs above show these "lumps" as they appear under the microscope. Stone-bruises, premature blow-outs, and other tire troubles are largely due to this "lumpy" structure of the rubber.

A real step forward in tire making

Four tire experts in the Thermoid Rub-

ber Company spent months in laboratory work and road tests. They finally perfected Crolide—a rubber compound that reduces "lumpy" formations to a minimum—that eliminates premature tire troubles.

This even-texture rubber does not weaken with the stretching and straining that goes on inside a tire in use. Made with Crolide Compound, Thermoid Tires are protected against rapid wear—against unnecessary sand-boils, blisters and blow-outs.

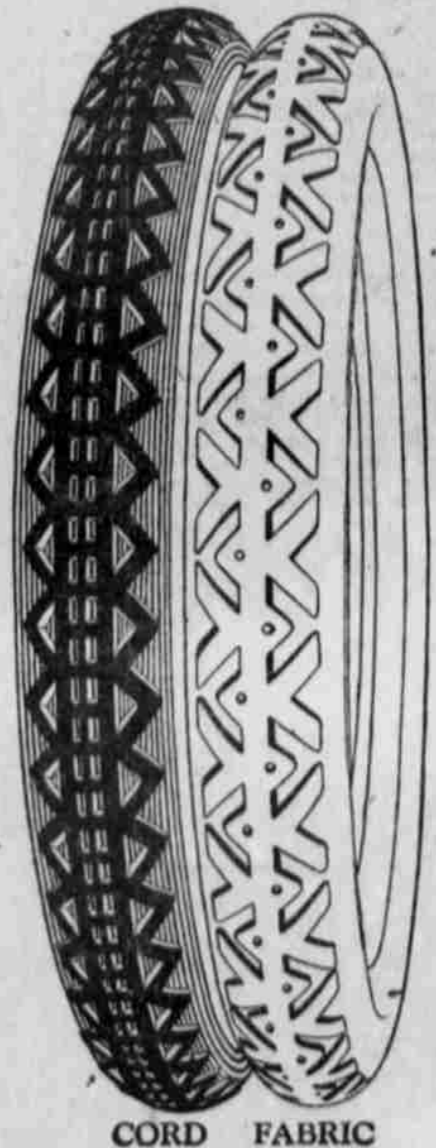

Yet despite its greater strength and density, this new rubber is actually more resilient. A one-inch strip stretches to 7 1/2 inches, almost eight times its original length.

Crolide Compound is today used exclusively in the manufacture of Thermoid Tires. Either the Cord or Fabric type gives maximum mileage under all road and weather conditions.

It can be fairly stated that a Thermoid Tire is equal to its oversize in any ordinary make.

We have compared the Thermoid Tire carefully point by point, with other tires on the market today and we confidently believe that no other tire compares with it for service and durability.

You are invited to call and see these new tires for yourself—also the famous Crolide Compound Tubes.
