Macaulay Silenced Critics.

Macaulay was a victim to the habit of reading in bed. When going the northern circuit as a newly fledged barrister, an old king's counsel staying in the same hotel with him noticed that Macaulay carefully picked out the longest candle as the members of the mess were retiring for the night. "He remonstrated with him," says Sir George Trevelyan, "on the danger of reading in bed, upon which Macaulay replied with immense rapidity of utterance: 'I always read in bed at home; and if I am not afraid of committing parricide and matricide and fratricide, I can hardly be expected to pay any special regard to the lives of the bagmen of Leeds.' And, so saying, he left his hearers staring at one another, and marched off to his room."

ONE BRAND - ONE QUALITY - One Size Package

All our skill, facilities, and lifelong knowledge of the finest tobaccos are concentrated on this one cigarette—CAMEL.

Into this ONE BRAND, we put the utmost quality. Nothing is too good for Camels. They are as good as it's possible to make a cigarette.

Camel QUALITY is always maintained at the same high, exclusive standard. You can always depend on the same mellow-mild refreshing smoothness—the taste and rich flavor of choicest tobaccos—and entire freedom from cigaretty aftertaste.

And remember this! Camels come in one size package only—20 cigarettes—just the right size to make the greatest saving in production and packing. This saving goes straight into Camel Quality. That's one reason why you can get Camel Quality at so moderate a price.

Here's another. We put no useless frills on the Camel package. No "extra wrappers!" Nothing just for show!

Such things do not improve the smoke any more than premiums or coupons. And their added cost must go onto the price or come out of the quality.

One thing, and only one, is responsible for Camels great and growing popularity—that is CAMEL QUALITY.
