Ontario, Oregon, September 26, 1921.

H. R. Udick,
Ontario, Oregon,
Dear Sir:

The Arcola equipment which you installed in the Argus office in the fall of 1920 has given entire satisfaction. For the first time our office was uniformly heated and comfortable in every portion, even on the coldest days last winter. This was accomplished, too, with a saving in fuel and in time, for we did not have to stoke often to obtain this result. We deem the Arcola a permanent improvement which we would not be without, and a means of saving money, while multiplying comfort.

ONTARIO ARGUS,
By Geo. K. Aiken.

We have a Stock of Arcola Heaters on hand now. Let us show how to solve your heating problem, cut your coal bill and increase your home comforts.
