Egyptian Decorative Ideas.
 Experts tell us that in the decoration of furniture the Egyptian cabinet maker never veiled construction. He obeyed the sound principle and precept that decoration should spring from construction, and not construction from decoration.

Elements of ornament apparently were the same in private as in public buildings. These elements were the lotus and papyrus flowers, the palm branch and the feathers of birds, as well as a number of geometrical patterns derived from primitive arts of weaving and plaiting. The simple or complex treatment of lotus and papyrus flowers, buds, leaves and stems, it is asserted, made the Egyptian system of mural decoration rich, varied and glowing, as well as thoroughly in harmony with the scale of color set by nature in the Nile valley.

AN ABSTRACT IS A HISTORY OF LAND TITLE

An abstract of title is a short methodically written history of the title to a designated tract of land. It consists of a summary of the material parts of every recorded instrument of conveyance which affects the title, together with a statement of all liens and incumbrances to which the same is subject.

The object of an abstract is to afford the prospective purchaser or mortgagee of real estate a convenient means of ascertaining the condition of the title.

The cautious man will not accept a deed or a mortgage on real estate unless it is accompanied by an abstract prepared by a reliable firm.
