**CERTIFIED SEED**

There is more or less misunderstanding about certified seed. The plan of seed certification calls for inspections both in the field and in the bin, by disinterested State employees. In order to have a basis for inspection, certain requirements are adopted for each particular kind of seed. Certification does not necessarily mean that the seed is entirely free of disease, entirely pure, or entirely true to type. It must come within a certain percentage of these various requirements.

The purchaser has assurance that the seed comes within the requirements of the inspection, which is certainly a great advantage in purchasing seed which cannot be personally inspected by the buyer. For anyone to say that certified seed is not good, is equivalent to saying that it is of no value to him to have had the services of a specialist to examine the seed for him two or three times, and give his official approval of it. There are, of course, different values in certified seed according to whether the stock passes with a wide margin or just barely gets under the requirements.

**Pacific Live Stock Exposition  
Dairy Show to Be Large**

The live stock breeders of the East have been working to achieve perfection for nearly a century and they have secured remarkable results, but the pictures shown above are not animals from the East and their type would not shame the skill of any breeder on earth. They have beautiful conformation, style and quality in every line, and would stand high in any dairy show in the world. One of these animals is the junior Holstein bull calf shown at the Pacific International last year. He came from Hollywood Farm, Hollywood, Washington, and won high honors. The other is a Jersey heifer calf from Iron Mine farm at Oswego, Oregon, also on show at the Pacific International. The quality of dairy animals of all breeds on the Pacific Coast is a source of perpetual surprise to the dairy breeders of other sections. Without losing type, they have size and constitution, which the dairyman loves, and which any animal must have to endure.

The dairy industry of the Pacific Coast has grown steadily since its inception. This is partly on account of the favorable climate and wealth of feed produced here. The possibilities for increasing the output of dairy products are almost limitless. There are markets both at home and abroad for many times the amount of cheese and butter now made. The difficulty has been largely due to the unprofitable cows. High quality of animals will do away with this.

There is no place east or west, north or south, where one interested in dairy cattle can find so many in one place and select such quality as at the Pacific International at North Portland, Nov. 5-12.

**ONTARIO'S GREATEST NEED  
TODAY IS  
SIDEWALKS**

The appearance of Ontario as a city is injured by the lack of sidewalks, good durable Concrete sidewalks. The value of many good pieces of property is lessened because there are no walks in front of them.

In This Not True?

The only manner in which this condition can be remedied is to have the needed walks built. There is no need for delay on account of high prices. Concrete walks last for many, many years, they have not increased in cost as have other materials. They last longer and are cheaper and better than board walks.

WE CAN BUILD YOURS NOW

If you want a walk, if you need a walk, if you would have Ontario a better looking homelike city, let us

**OWYHEE NEWS NOTES**

Marion Lowe a Delegate  
Once again Owyhee is privileged to catch a few rays of reflected glory. Miss Marion Lowe, who has been a cabinet member of the young Women's Christian Association of Whitman College for the past two years, serving as chairman of the meetings Committee last year and filling the office of Vice President and Chairman of the Members' Committee this year, has for the second time since returning to collect this fall, been selected as one of three delegates to represent the Whitman Y. W. The first conference was held in August at Seabeck, Washington. The recent one was a conference of women from Industrial Clubs and girls from the colleges who are actively interested in Y. W. C. A. work. In describing the trip Miss Lowe states that they, with their chaperon, drove in a Dodge car from Walla Walla to Pullman, having a "glorious time" with no car trouble or accidents except three punctures, one blow out a broken spring and a broken axle, which to some might seem serious but to four enthusiastic Y. W. workers who all lent a hand in repairing, merely added zest to the occasion. While in Pullman the delegates were entertained by the different Sororities W. S. C.

Mr. and Mrs. W. H. Snyder are the proud parents of an 8 pound daughter, born Monday, October 17. Mr. and Mrs. Frank Friar and Donald Beebe left Wednesday for an overland trip by Ford to their old home at Dallas, Oregon.

A wholesale ralling of sage brush by Messrs. McEwen, Reece, Pullen, Wallace, McGinnis and others would indicate a strenuous effort to combat the exorbitant price of coal.

Doc Pullen sold his hay to Mr. Guildersheve, of Payette, who will feed sheep there. The price was five dollars. S. D. Bigelow sold part of his third cutting to Albert Caperton for the same price.

A school meeting to vote on the budget was held at the schoolhouse, Saturday afternoon.

Mrs. John Wall and children visited at Lowe's, Saturday.

Mrs. Chas. Fisher and Mrs. Albert Caperton spent Wednesday afternoon at the Bigelow home.

The telephone linemen, Floyd Linder and helpers replaced a telephone pole, Saturday which was broken off by a runaway, causing Mr. Shatto's phone to be out of "central's" reach a couple of days.

Owyhee friends are sorry to learn that Rev. W. F. Shields will be with us but once more as he has resigned the pastorate here and will go to Wallowa. He intends holding services here at 2:30 on October 30.

The Owyhee P. T. A. held a meeting at the school house Friday afternoon. As it has been learned that the mother of our adopted French orphan, Pierre Bardin, has recently remarried and is now in a position to care for him unaided, they decided to turn the "orphan fund" to another "war orphan." It was also decided to give a "Get Acquainted Party" on Halloween, Monday evening at which it is earnestly desired that the community will be well represented.

The McNary vs. Klingback case pled before Hon. Judge Dalton Biggs at Ontario, occupied two and a half days of the past week, beginning Thursday, October 20. The plaintiffs were represented by attorney W. W. Wood, while attorney W. E. Lees pled for the defendants. The case was a suit alleging fraud and misrepresentation of acreage on the part of the defendants when selling the plaintiffs a ranch and asked the crops, and their payments returned. A countersuit for foreclosure was brought by the Klingbacks on grounds of violation of contract. A verdict was returned in favor of
