A NEW POULTRY HOUSE

Proper housing is one of the most important factors in successful poultry raising. The man who attempts to attain any measure of success in the poultry business without providing the very best of shelter for his flock, is only cheating himself.

The Boise Payette Lumber Company is prepared to greatly assist you in planning and building your new poultry house by furnishing plans and specifications for all sizes of the most approved types of buildings.

The poultry house illustrated above is planned in units of 10 feet, so that it can be built in any length or width desired. This drawing is for 24x40 foot size. The plans provide for special drooping boards, food hoppers and hinged windows for proper light and ventilation. It has all the desirable features a modern poultry house should have. At this low price of material, the investment is small compared to the increased profits you will realize from greater egg production.

To Ford Owners

This is the time of the year to have your car put in running order, for the bad roads that are coming. We are making special prices on MOTOR OVERHAULS during the winter months, in fact we are reducing all labor charges in order to keep our mechanics busy during the quiet season. Our shop is the most completely equipped Ford shop in Malheur County, and we can for a very nominal sum make the old car run like new. There has also been a big reduction in Ford parts.

We solicit your business and guarantee satisfaction.
