### Cold weather Lubrication

When the cold snap comes it is important that you use lubricating oil having a low cold test. Zerolene No. 1, No. 3 and No. 5 are low cold test oils. They remain fluid and feed properly even when the temperature is below freezing.

Poor cold test oils congeal at freezing temperatures. This causes hard starting with excessive drain on your storage battery. When congealed, the oil cannot be splashed or pumped to the bearing surfaces in sufficient quantities, and there will be lack of lubrication until the oil has been warmed by the heat of the engine. During this time there will be loss of power and poor acceleration. Excessive wear or even burned bearings and scored cylinders may result.

Drain your crankcase and fill with Zerolene as recommended for winter use in the Zerolene Correct Lubrication Chart and solve your cold weather lubrication problems.

For sale by dealers everywhere and at our stations.

### THRILLING DESERT SCENES

They Abounded in Big Paramount Picture, "The Sheik."

That portion of the California desert where George Melford, the producer, made the exterior scenes of "The Sheik," which comes to the Majestic Theatre December 18, proved to be a populous place. Hundreds of extras—people who rode like the wind and who were attired in the picturesque Bedouin costumes, with long rifles and flowing robes, gathered at the oasis and took part in a mad ride, characteristic of these marvelous equestrians. Rudolph Valentino, has the title role in this Melford production, while Agnes Ayers, new Paramount star, is featured opposite him in colorful role. Indeed, color, vivid action, swift movement and dramatic situations are the features of the picture which was adopted by Monte M. Katterjohn from the famous novel by E.M. Hull. Walter Long has the heavy role of Omair, a bandit chief.

## Make It An ELECTRICAL CHRISTMAS

There is nothing in the true spirit of giving that is incompatible with common sense, which surely dictates that there is every reason why both sentimental value and usefulness, to say nothing of beauty, should be combined in the gifts we give.

Electrical appliances are useful every day of the year, and may be enjoyed, not only wife or mother, but by every member of the family. They make splendid gifts from an individual to an entire family, or from one family to another.
