The Brunswick

The Ultona has two parts in the exclusive Brunswick Method of Reproduction.

First, it plays all records just as they should be played. A turn of the hand presents to the three types of records the proper needle and diaphragm, at the precise angle and with the exact weight required for correct reproduction in each case.

Second, being delicately counter-balanced, it banishes the scratching noises due to a rigid tone arm.

The Oval Tone Amplifier is shaped on a radically different principle from that used in other phonographs. Made of specially treated wood. No metal is used. The metallic, blasting sounds due to a cast metal throat are absent.

It allows sound waves to expand and amplify properly, according to the most advanced acoustical and musical laws. Come in and hear The Brunswick and Brunswick Records, which are played on any instrument using steel (or fibre needles.

Baby Week

PRETTIES FOR YOUR BABY

One of mother's greatest prides is in her baby's dresses, undergarments and all of its little wearables. So many extra dresses that mothers appreciate the need of, can be quickly, easily and very economically made if you will use a good sewing machine for the fine stitching required for baby's clothes. The "White" is a machine capable of performing all practical sewing needs.

EASILY AND QUICKLY MADE ON A

WHITE MACHINE

BABY'S NEEDS ARE MANY

From the time that they are babies in arms, until they are six years old, they require a great many little clean dresses; sometimes two a day. There is decided economy in having plenty of them rather than having a limited number. Materials for baby's dresses are reasonable, and they can be quickly and easily made on a "White" machine.

SPECIAL "BABY WEEK" PRICES AND TERMS "PAY AS YOU SEW"

A "White" will pay for itself many times over—you cannot afford to be without one.
