

An extra measure of power with every gallon drawn from this pump,

Gasoline, mixed with air, makes gas, and gas makes power.

How much power depends primarily upon how completely the gasoline vaporizes in the carburetor.

"Red Crown" vaporizes 100 per cent. Every atom mixes with many times its weight of air and combusts cleanly and powerfully, leaving a minimum of carbon residue on spark plugs, valves and cylinder heads.

That's why you get more power and mileage and a sweeter-running motor when you use "Red Crown."

Fill at the Red Crown pump—at Standard Oil Service Stations, at garages and at other dealers.
