

You may increase your engine power 20%

Too heavy an oil, or one lacking in certain qualities, may reduce the power delivered to the wheels of the automobile as much as 20%.

The ideal oil is the thinnest oil which will keep the bearing surfaces of the mechanism separated.

Providing this oil has "oiliness," stability and purity, it will give perfect lubrication, and permit the development of the maximum power, speed and gasoline mileage of the car.

"Oiliness" — Stability — Purity

Zerolene meets the conditions perfectly. It has great "oiliness," due to the crudes from which it is made, and our own patented process of high vacuum distillation.

It has great stability, as a result of which it resists engine heat and forms only a minimum of carbon of a soft, flaky nature which blows out with the exhaust.

And it is pure. This company has always considered the removal of all detrimental properties and compounds as essential in making Zerolene.

Zerolene of the correct grade gives perfect lubrication and permits the development of the maximum power, speed and gasoline mileage of the car.

SOUGHT TO ENHANCE CHARMS

Roman Beauties Well Knew the Value of Time Spent at the Toilette Table.

The toilette of the Roman beauty was a vastly important affair. The maids who assisted in it were usually Greek slaves, and the length of time devoted to it may be judged from the fact that, like beauties of France so many centuries later, the Roman woman often had the poets and the philosophers of the day to divert her during its progress, a favor of which they seem to have been less appreciative than their descendants in France.

The equipment for the toilette was both elaborate and complete. Combs, mirrors of burnished bronze, bottles for perfumes and boxes for rouge and whitening preparations are all to be found in collections of Roman toilette articles, and many are the harsh words on the subject of the feminine toilette to be found in the writings of their masculine contemporaries who disapproved of charm in their women, yet seem with masculine inconsistency to have disapproved equally of women without charm.
