

**CLUB NOTES**

August 24  
**Bonita Sewing Club Holds Achievement Day**  
 The Bonita Sewing club held their achievement day on Wednesday at the home of Mr. Phelan. Twenty-five people were present for the picnic dinner and entertainment in the afternoon.  
 Immediately after lunch the sewing was judged by Mrs. Jones, Mrs. Phelan and Mrs. Wellman. Mabel Lees was awarded first place, Mary Lewellen 2nd and Cora Lewellen 3rd. The farm bureau put up \$3.50 for prizes. The other two members of the club, Doris and Violet Lees,

did not compete.  
 The demonstration team composed of Doris and Mabel Lees, Mary and Cora Lewellen demonstrated how to make several kinds of stitches and explained their use.  
 This club will have a 100 per cent exhibit at the County Fair in September. Every member is doing exceptionally fine work and they are determined to carry off some of the prizes at both the county and state fair.  
 Violet Lees is not only taking up Division II sewing, but is acting as local leader for the club. The splendid success which this club has achieved is largely due to her efforts. The quality of sewing which the girls are doing shows how pains-

taking work on the part of the local leader in directing the project in leader in directing the project is

**Club Picnic at Riverdale**  
 Over fifty people attended the Boys' and Girls' club picnic at Riverdale on Friday, which was held in the grove at Robert Watson's. The clubs represented at the picnic were Moores Hollow Poultry club, Jefferson Pig and Sewing clubs, Lincoln Homemaking club, Annex Cooking and Pig clubs. After dinner at noon the boys went in swimming. About the middle of the afternoon several games and contests were staged, ranging from boxing to water baseball.

**Jefferson Sewing Club Has Nearly Completed Work**  
 The members of the Jefferson Sewing club have nearly completed their work. Some of the girls are through with the exception of finishing their final report, while others still have one or two garments to make.  
**Club Members to Compete Against Parents**  
 Besides being eligible to compete for prizes offered in the club department the club members may enter their exhibits in the open classes. That the club members can put up a quality of work equal to their fathers is not to be doubted. At the state fair last year the club members successfully competed against the large breeders in the Northwest.  
 The boys and girls who wish to enter their club work in the open classes as well as in the club department should get in touch with the county club agent.

**Burmese Story of Man's Origin.**  
 A myth current among the Burmese says that heavenly beings came down from the skies to the earth, and there ate Thalesan, a particular kind of rich rice, which gradually made them gross of habit, so that they were unable to make their way back to the higher heavens again and had to become men and women.  
 The Chins have a story of the Tower of Babel to account for the various clans that inhabit the range of hills looking down on the Bay of Bengal, and traditions of a deluge are found everywhere.  
 The Kachins tell a story of the passage over a bridge, to the afterlife, and there are many more of the kind that suggest these folk-myths come down from a long-gone past.

ing potato digging, etc., no choir practice was held at Klingback's as expected.  
 Mrs. Paul Brainerd and sons Earl and Ralph, formerly of Nyssa, but now of Manhattan, Kansas, where her husband is a member of the faculty in the University, visited from Wednesday to Saturday evening at the Lowe home.  
 Mesdames Ada and Verna Schweizer called at Fenn's Saturday.  
 Miss Marian Lowe returned home Thursday after spending two months attending the Delta Gamma National convention in New Jersey and visiting with relatives in Missouri and Oklahoma. She will visit with her parents until time to return to Whitman College in September.  
 Mrs. Warren Fenn and daughter Bernice, and son Carl, visited relatives in Nyssa Saturday and Sunday.  
 Mildred and Evelyn DeBord visited over night at Klingback's Saturday.  
 Earl Flock and father, of Payette, have purchased a threshing outfit and have several threshing jobs engaged in Owyhee.  
 Mrs. T. M. Lowe and daughter, Marian and Mrs. Paul Brainerd and children visited Saturday at the Sherwood home where Mrs. Brainerd met her husband's mother from Caldwell.

## Get Your Share - of Extra Mileage

IT is all true—every word of the news that's going around about Firestone mileage records and the phenomenal sales that have resulted.

Chances are you really haven't heard the full story of the wonderful success of Firestone Cords. We'd like you to call and get the actual facts. That is one sure way to make your next tire purchase a logical business buy. We'll explain the blending and tempering of rubber—double gum-dipping—and the air-bag cure—special Firestone processes.

The unusual mileage being made everywhere will stir your ambition to reduce the operating costs of your own car.

A call on us entails no obligation. Get the records—divide the distances these Cords are covering by Firestone prices. Then you'll be convinced that Most Miles per Dollar means what it says.

Drop in—Any Time

**August 17 Club Members to Have Large Exhibit at County Fair**

From present indications the club members will have one of the largest departmental exhibits at the County Fair. Fully 60 per cent of the 300 club members have expressed their intentions of exhibiting their work.

The largest exhibits will probably be in the pig and sewing projects. The other projects of cooking, canning, home-making, corn poultry and dairy herd record keeping, however, will be of good size and quality.

In nearly every community the club members are beginning to take stock of their work and study where it can be improved. In the pig clubs a little more grain is added to the ration, the vigorous application of soap and water is giving the hair a glossy appearance, and the pig is being taught the gentle art of conducting himself properly in the show ring. The corn club members are busy pulling weeds and irrigating, and many an anxious moment is spent by the poultry club members in deciding on what birds to select for the fair. The girls are also beginning to study where their work might be improved. The competition is going to be keen and it will indeed be excellent work that places in the prize money.

Besides the general exhibit there will be several special exhibits. The sewing club at Ontario is planning a small booth to display their doll clothes project. The Valley View Poultry club will have a demonstration on the value of a balanced ration for poultry.

**Advising a Writer.**

I have no means of knowing whether you are patient in the pursuit of this art; but I am inclined to think that you are not, and that you do not discipline yourself enough. When one is impelled to write this or that, one has still to consider: "How much of this will tell for what I mean? How much of it is my own wild emotion and superfluous energy—how much remains that is truly belonging to this ideal character and these ideal circumstances?" It is in this laborious struggle to make this distinction, and in the determination to try it, that the road to the correction of faults lies. Perhaps I may remark, in support of the sincerity with which I write this, that I am an impatient and impulsive person myself, but that it has been for many years the constant effort of my life to practice at my desk what I preach to you.—Dickens.

**The Singer and the Song.**

A song is a great adventure. Thousands write it, tens succeed; and when they have succeeded, its fate still lies entirely with the singer. No one ever had it so much in his power to make the worse appear the better cause, or to refrain from so doing. The ancients placed Thamyris and Narada among the gods; the moderns pay their counterparts royalties. But the singer's personality is still incalculable in terms of canonization or of cash. That personality means all that he has been able to crowd into his life; and he may still enlarge it. A good way to do that is to read all the poetry that he does not sing, and to listen to all the music written for some other instrument than the voice.—A. H. Fox Strangways.

**Harmony of Colors.**

It is a well-known fact that a pleasing harmony of colors attracts the eye much as musical harmony pleases the ear. In order to test the harmony of color combinations, a machine has been devised, described and illustrated in the Popular Mechanics Magazine, with which a colored disk is revolved rapidly, so as to cause the colors to merge, and this visual mixing of the colors gives the same result to the eye as would the actual mixing of the colored inks themselves.

**Great Publicity Stuff.**

"I understand Gladys Gladeyes, the movie star, pays her new press agent \$10,000 a year."  
 "He's worth it."  
 "Oh?"

"The fellow has brains. The first thing he did was to have Gladys photographed in a bungalow apron, stirring something on a gas range."—Birmingham Age-Herald.

## OWYHEE

The Kingman Colony Canning team with their teacher, Mrs. Conrad Martin, picnicked at the DeBord home Wednesday afternoon. After the business features of the meeting were disposed of the members responded the "old smimmin' hole", and despoiled themselves merrily in the Owyhee river, after which a picnic lunch was served on the lawn.

Mr. and Mrs. Frank Newbill of Ontario, were Sunday guests at the Geo. Glascock home.

Willie McGinnis and S. D. Bigelow are getting their potatoes dug this week.

Owing to weariness of the members as a result of hard work in hay-

**MALHEUR DRAINAGE DISTRICT NOTICE OF ELECTION**
