

Nation Builders in the Making

There is no institution which is building good, sound citizenship more steadily and consistently than Boys' and Girls' Clubs. It teaches its members not only how to produce good livestock, soil products or prepared articles, but they learn in it thrift, business principles, and, best of all, true manhood and womanhood.

In the center of the group shown here stands Dale Altman of Gresham, Ore. He is a member of the Multnomah County Jersey Calf Club, and the other two boys are members of the same club. Dale's calf won first in the county club exhibit at the Multnomah county fair this year and won

championship in the open classes. It was placed fourth at the Oregon state fair.

He is expected at the Pacific International Live Stock Exposition held in Portland, Ore., November 4-11, to try his skill at showing with the winners from other parts of the Northwest.

The Pacific International Live Stock Exposition has always backed livestock club work in every way possible. This year for premiums and awards it gives the clubs for exhibits and judging, together with the associations and individuals, \$3625.

Save Repairs Paint Now

It Costs More to Rot a Building Than to Paint It

A GOOD way to determine how much it costs to rot a building is to find out how much lumber, needed to repair or rebuild, would cost.

You'll find that it costs several times as much as the paint which saves repairs. Paint your buildings when they need it. Rotting property is wasteful and extravagant.

The most economical paint, in the long run, is the best paint. It's easy to apply—saves labor cost. It covers more area per gallon than "cheap" paint.

The best paint serves five or more years longer than "cheap" paint.

The best paint is economical be-

cause it is scientific in formula and preparation. It is right.

We've made best paints for 73 years—to meet the weather conditions in the West. They contain the finest materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc, and pure colors—combined in scientifically exact proportions with long-time skill.

VOTE X 31

James A. Lackey for Representative of Malheur County

Six of the many reasons why you should elect "Jim" Lackey representative for Malheur County.

FIRST. He has been a stock man, farmer and tax payer of this county for forty-two years, and he faces the same problems that confront you Mr. Taxpayer.

SECOND. He stands unqualifidely opposed to any increase in the tax burden and will strive to eliminate all unnecessary appropriations.

THIRD. He believes in the consolidation of the various boards and commissions and the abolition of such as may be unnecessary.

FOURTH. He stands for and will advocate a severance tax so that all timber cut from the Federal Reserve Forest shall pay a substantial tax.

FIFTH. He believes in a franchise tax for all public service corporations.

SIXTH. He is safe, sane and conservative, and will work for your best interest Mr. Taxpayer.

Many counties are electing farmers to the Legislature... Eighty-five per cent of the present taxes are levied on the farmer and stock man... This proportion is unjust... A vote for Lackey will be a vote to reduce taxes and distribute the burden.
