Boise makes deal to put it on mainline

BOISE MAKES DEAL TO PUT IT ON MAINLINE COCHRAN'S POSITION

Boise is going to be on the mainline. The Idaho National Guard's 1,284-acre Camp Cochrane is for lease, under a contract signed by Governor Otis B. Gowdy. The contract was signed with Camp Cochrane on November 29, 1945. The new lease includes 1,284 acres of the camp, which is located near the Idaho-Washington border. Under the arrangement, the railroad will build a spur line from the mainline to the camp. The lease will run for five years.

Boise's announcement comes on the heels of a similar deal with the state of Oregon, which recently leased a portion of Camp Cochrane to the state for use as a training facility. The Idaho lease is expected to bring a significant increase in employment and economic development to the area.

Governor Gowdy said that the lease is a major step forward in the state's efforts to attract new industries and businesses to the region. "This is a win-win situation for everyone involved," he said. "It will mean new jobs and new opportunities for our citizens, and it will also help to strengthen our relationship with the federal government."
