OREGON SLOPE

THANKSGIVING IS THEME PARK IMPROVEMENT PROGRAM

Farewell Parties Held for Ranchers Who Are Moving From Oregon Slope-Shower Held For Mr. and Mrs. McVicker

Mrs. P. M. Boals and Mrs. Mason Clough were hostesses to the members of Park Improvement club last Thursday afternoon at the home of Mrs. Boals. Twenty members responded to roll call with notes pertaining to Thanksgiving, Three guests were present, Mrs. Griffin of Payette, a former member of the club, and daughters Mrs. Stewart and Mrs. Shellhan of Payette. Fol- Mrs. Arthur Miller, she was honor ing in charge of the program., read which all enjoyed. At the close of the afternoon session a dainty Payette. luncheon was served by the hostesses. The next regular meeting of the club will be held Thursday. Payette Saturday evening. December 7th at the home of Mrs. C. A. Karst with Mrs. Harry Lattig Ontario were guests of O. C. Miller assisting. Mrs. Karst is entertaining the club at this time in place of Mrs. Bartshe, who will entertain later in the year.

Mr. and Mrs. E. L. Brown and Mr. and Mrs. S. J. Simpson, who have resided on the Slope for several years, were given a complimentary P. M. Boals by 85 of the friends and neighbors Saturday evening. The occasion of the gathering of these friends was in the nature of a farewell party for the two families. A merry time was had at the party games of various kinds, in which young and old participated, also and Mrs. George Sullens. music by Miss Righy of Weiser on the violin, with James Atterbury at the piano, supplemented by a delicious lunch prepared by the visitors. Mr. and Mrs. Brown expect to move to McKinney Island near Payette in the near future, while Mr. and Mrs. Simpson are moving to Seattle. Both families will be greatly misse Both families will be greatly missed in this community and the best wishes of a host of friends go with them to their new homes.

Mrs. J. D. Conner was a dinner guest Thursday of Mrs. Mason Clough.

Mr. Landruff of Little Willow spent Wednesday with Mr. and Mrs. C. Welcher.

Mr. and Mrs. Fred Frost of Wyoming are guests at the home of the C. W. Garrett, 31/2 miles west of former's parents, Mr. and Mrs. E. Ontario.

Frost. They expect to pend some time on the Slope with the intention of probably locating here permanently.

Harry Feldcher and daughter Margaret of Boise, were week end guestfs of Mrs. Otto Miller.

Miss Mary Conner spent Thurs day with Mrs. Dave Howard.

Miss Ethelyn Corneilson of Payette spent the week end with Gertrude Boals. Mr. and Mrs. Carl Bedsall and

children left the first of last week for their old home in Virginia.

Mr. and Mrs. Betzer and daughter, Violet, who have spent the past few keeks with their daughter Mrs. Arner Gorton, left Monday for their new home in Nampa.

Mrs. D. R. Davis visited Mrs. C. A. Karst several days last week. Tuesday evening of last week being the birthday anniversary of

lowing a short business session a guest at a party which proved a Thanksgiving program was enjoyed. complete surprise. With a party of Mrs. Meili and Mrs. D. R. Dean be- friends Mr. and Mrs. Miller motored to Fruitland where they enjoyed the interesting papers on Thanksgiving evening dancing, followed by a birthday dinner at the Blue Bird in

Mr. and Mrs. C. C. Wilcox were guests of Mr. and Mrs. Fred Moss of

Mr. and Mrs. S. E. Chapman of and wife Saturday evening.

Miss Lola Gorton of Payette and Mr. Demery of Glenns Ferry were en tertained at dinner Sunday at the home of Mr. and Mrs. Arner Gorten.

Mrs. P. M. Boals was hostess at dinner Saturday evening in honor of Mr. and Mrs. E. L. Brown and party at the home of Mr. and Mrs. children, who are leaving soon for home on McKinney Island. Covers were laid for the following guests: Mr. and Mrs. Mason Clough, Mr. and Mrs. Brown, George and Maude Culp.

Mrs. Lias and daughter Jessie were guests Sunday evening of Mr.

EARLY HISTORY OF LETROIT

Interesting Now to Read of Forts Erected for Protection of Citizens Against Indians.

For nearly twenty years following the American occupation of Detroit in 1796 the Indians of the Saginaw valley harassed the citizens by threatening attacks upon the town, and by stealing their cattle from the public common through which Washington boulevard was afterward surveyed Fort Shelby, which then centered about the present site of the post office, did not intimidate the Indians from invasions of the common, so a circular earthwork fort was constructed just east of where High and Park boulevard now converge for addltional protection. The work was performed by soldiers from the fort during the year 1806-7.

When finished this fort inclosed a circular space of half an acre. The walls were ten feet high, with an inside parapet half way up. It was surrounded by a broad ditch about six feet deep, which the swampy ground kept filled with water. For several years a small detail of soldiers went out from Fort Shelby to this post to stand guard against cattle thieves, but nothing ever happened, so the inhabitants called it Fort Nonsense. Years later Rev. George Duffield, D. D., bought the land and built his residence on the Woodward avenue front. Streets were laid out on each side of this lot. That on the south side was named George street and that on the North, Duffield street. The old fort was razed and graded leyel. For some reason George street was renamed High street.-Detroit News.

MAKE WAR ON "BABY TALK"

Cincinnati School Authorities Have Issued Special Appeal to Women's Clubs of the City.

An appeal has been made by the school authorities of Cincinnati to the mothers of that city to enlist in a war against "baby talk," and its effects on their children, and a special speaker has been appointed to carry this cause to the mothers' clubs.

While much of the talk with which fond mothers begulle their babies may sound very Coolish to others, it seems to sound good to the baby, and while the claim that it makes stutterers and causes other defects of speech may have some truth in it, the "baby talk" will bear comparison with much other tf. . talk heard by children.

While good speech is important, the matter is of more importance than the manner-in fact, good matter naturally tends to good matter in speech. It is at least quite as important that parents, fathers as well as mothers, are careful to select the right subject matter for talk before and to their children as that baby talk be eliminated.

Try, as they may, the teachers are likely to have a hard time anyway to convince many mothers that baby talk is not the proper language in which to address the baby, both as to subject matter and method of speech .-

CIT. IS FRUITS BY-PRODUCTS

Experts Have Shown How Profits to Growers From Materials Once Waste Can Be Made

To offset the serious losses in the citrus fruit industry occurring through brulsed, undersized or oversized oranges, grapefruit and lemons usually allowed to go to waste, the bureau of chemistry of the United States De-COUNTY COURT partment of Agriculture has investi gated methods for getting by-products that will return a profit to the grower Some of these products require a preliminary expense for equipment, but It has been demonstrated that the in vestment can soon be made profitable

Grapefruit juice, which is increasing in popularity, can be easily made if directions for pressing, straining, pasteurizing, clarifying, sweetening and bottling the juice are carefully followed. These directions may be obtained from the department.

A blend of grapefruit juice with loganberry juice has been found popular. Orange vinegar is a satisfactory substitute for apple vinegar and should be made in districts where many cull oranges would otherwise be a total loss. Citric acid is a valuable commercial article which can be made from cull lemons or limes if proper apparatus is installed.

Other by-products from citrus fruits often wasted include candled citrus peel, for use as a confection or by bakers in place of citron, marmalades. jellies, butters and pectin.

FRENCHMAN HAD RIGHT IDEA

Principles of Flying Set Out by Louis Pierre Mouillard Have Been Proved Correct.

Who was the first glider? In supplying an answer there is room for the patriots of many nations to delve in medieval annals. Italy and France have a good case. Jean Baptiste Dane is said to have made a success ful glide at Perugia in the Fifteenth century, while the marquis of Bacqueville, in the middle of the Eighteenth century, skimmed across the Selpe at Paris.

Details of a convincing kind are however, lacking. But there is no doubt of the theoretical claims of the Frenchman Louis Pierre Mouillard, who died a quarter of a century ago in poverty at Cairo. In two volumes he set out the principles that should guide man in seeking conquest of the air. To seek to fly by imitating the beating of a bird's wing was not feasible. "Men should imitate such birds as fly with steady wings and avail themselves of the currents of the air.'

Ten years after Mouillard was dead (with his dreams of an actual machine unfulfilled) the Wright brothers began the development of his ideas,

Eskimos.

Canada's mounted police count noses and find only about 2,700 Eskimos living in the Far North, not including

The low figure is surprising. Beginning with our first lessons in geography, we have heard so much about the Eskimos that most of us imagined they existed in much greater num-

In bidding for fame, the Eskimos have had the additional handicap of never producing a great man. Despite mediocrity and fewness, the

Eskimos have become known in al parts of the earth. This shows the power of advertis

ing.

Peculiar Well.

The attention of the geological sur vey has been called to a peculiar well in Ohio, and has caused an investiga tion to be made of it. It appears that the well produces both fresh and salt water through two separate pumps The explanation proves to be very simple. Two water-bearing beds, con fined between layers of limestone, oc cur at this point, one above the other. The pipe of the fresh-water pump tap the upper vein at a depth of 16 feet. The pipe of the salt-water pump touches the lower vein at a depth of 35 feet; and the brine, being heavier than the fresh water, does not mix with it, but remains at the bottom.

Meatless Diet In a Hospital.

The experiment of a meatless diet is being tried in the Beth Israel hospital of New York by Superintendent J. Louis Frank. Until recently it was contended by some that meat was the source of vitamines, but this has been recently disproved by Dr. E. V. Mc-Cullom, professor of chemistry and hygiene of the Johns Hopkins university. From a medical standpoint is is now asserted that there is nothing inherent in meat that cannot be sup plied by fish, milk, eggs and milk prod

Tool-Carrying Device.

To be attached to the overalls, or to a belt, a tool-carrying device has been developed by a Seattle carpenter. It is designed for a hammer, hatchet or similar tool, and, according to the Popular Mechanics Magazine, has two metal lugs which are caused to grasp the tool handle by the action of a spring latch operated by the weight of the tool.

Getting It Out of His System. "Where are those cool nights you ad-

vertised?" "Just wait," said the proprietor of s summer hotel, confidently, "they'll be

"Sure," snarled the guest, "but if it's winter you are thinking about, I won't be here."—Birmingham Age-Her-

1928 MALHEUR COUNTY BUDGET

To the Tax Payers of Malheur County, Oregon: To the Tax Payers of Malheur County, Oregon:
The budget Committee of Malheur County, Oregon, has fixed Thursday, December 20th, 1922, at 10 o'clock A. M. as the time, and the County Court Room in Vale, Oregon, as the place where the estimate of the amount of money proposed to be raised by taxation for the ensuing year, 1923, may be discussed with said County Budget Committee, also when and where any tax payers suject to such tax levy when made, shall be heard for or against any proposed tax levy.
