HIGH LIGHTS IN HARDING'S MESSAGE

Washington, D. C.—The recommendations of President Harding in his message to congress, include:

Abolition of the railroad labor board and substitution of a labor division of the interstate commerce commission, with power to enforce its decisions against both carriers and employes. If that proposal is not approved the board should be reorganized by removing all but the public representatives.

Steps must be taken to prevent strikes that threaten the public welfare.

Announcement that a conference of governors would be called here to discuss prohibition enforcement. The president emphatically declared for a strict enforcement of the prohibition law.

Greater credit facilities for agriculture and livestock interests.

Pooling of freight cars under a central agency.

The merger of railroad lines into systems for the purpose of economy and interchange of equipment.

Adoption of a constitutional amendment to abolish child labor.

Adoption of a constitutional amendment to restrict the issuance of tax exempt securities by states and the federal government.

Registration of immigrant aliens and establishment of immigration boards abroad to bar undesirables.

Extension of reclamation and irrigation work.

Conservation of forests.

Attention to the wide difference between the cost of production and the price paid by the ultimate consumer.

Creation of a central agency to aid railroad financing.

Approval of a proposal for the survey of a plan to draft all resources of the country, human and material, for national defense.

Attention to the super-power survey of the eastern industrial region looking to unification of steam, water and electric powers.

Only Brunswick Gives These Two Vast Improvements

True tones! That is what you notice first in The Brunswick. The notes of the piano are really there. The voice gets its fullest expression, to the last syllable. All without mechanical suggestion.

The Brunswick Oval Tone Amplifier, or tone chamber, is pictured above. It is made of light, resonant wood. Banishes those thin, harsh "tinny" sounds usual to the old type phonograph.

The Brunswick Utona, or composite sound-box, pictured above, plays all types of records without changing parts. A simple turn of the hand adjusts to any make of record.
