SANATORIUM TO BE ENLARGED

Big Laundry and Engine Building To Be Erected at Once Near Big Bath House

The changing of the plans of the \$250,000 Vale Sanatorium during the past few days means the erection of another brick building in Vale this summer. The new building is to be used as a laundry and engine room. It will be built of brick, on the same style of the big bath house, will be 30x80 feet, and be located about 100 feet distant from the other building. This will mean an additional expenditure of \$7000.

It was at first intended to install the laundry and engine rooms in the bath house, but since then it has been thought best to use that space for a number of living rooms for the caretaker as well as a number of rooms to be used by the people who wish to take advantage of the healing hot water baths for a number of days. Construction work has already started. The laundry is to be operated within a few weeks.

VALE INTERESTED IN COUNTY FAIR

\$1000.00 Worth of Shares Sold Here in a Few Hours On Thursday

C. E. Kenyon, E. A. Frazier, G. W. Long, H. C. Boyer, a committee of the Ontario Commercial Club, accompanied by Leon J. Chapman, Secretary, while in town Thursday swelled the treasury of the Malheur County Fair Association by \$1000 through the selling of shares in the association to local business men.

At a meeting of the Ontario Commercial Club it was found out that \$2000 was still needed to complete the present plans of the Fair Association. The following day Ontario business men, who had not become interested, purchased \$1400 worth of shares. With the amount raised in Vale Thursday the Fair Association is in fine shape to complete all plans for this year's fair.

JUDGE G. H. BURNETT VISITS OLD TRAIL

Traveled by His Parents in 1846 --Meeker Monument in Court Yard Marks Spot

Judge George H. Burnett, of Salem, was in town Tuesday while on a political tour of Eastern Oregon. While in the city the judge met many familiar faces. Judge Burnett is a candidate for the Supreme bench. There are three candidates in the field for the two places to be filled.

While in town Judge Burnett visited the court house yard as he was anxious to see the Ezra Meeker monument which marks the old pioneer trail. In 1846 his parents traveled over this trail, through Vale, while on their journey across the plains to the Coast.

IMPROVEMENTS STILL GOING ON

J. W. Lynd is remodeling his house in the west end of town.

A move is on foot by property owners along 12th street for the building of a sidewalk from the Oregon-Idaho Lumber office to A street. It was not decided whether a board or cement walk will be put in.

L. W. Goodrich, who recently sold his hotel, the Goodrich, now Arlington, is to erect a costly residence in west Vale.

NOVELTY BALL A PLEASANT EVENT

One of the most novel as well as most charming social events of the season was the Novelty ball given at the Arlington Hotel on Monday evening by Howard G. Norton in honor of Miss Florence Dunlop, who is soon to leave for Salem where she will resume her studies in the Willamette University. The affair was attended by a large number of young people who greatly enjoyed the novel form of entertainment, dancing in which the partners were chosen through the matching of cards and in many other amusing ways. Refreshments were served during the evening.

Twenty-three of the "little" folks were entertained in a most royal manner by Mesdames Claggett and Mueller on Friday afternoon of last week.

CIVIC CLUB TO IMPROVE CITY PARK

Ladies Ask City Council for Permission To Set Out Shade Trees

OIL ORDINANCE IS UP

For Discussion--Oil Dealers and Council to Come to Some Agreement at Next Meeting --Want to Erect Fire-Proof Buildings

At the regular monthly business meeting of the city council on Wednesday evening the ladies of the Civic Federation were given full power in the improvement of the city park as asked through a petition recently handed in to the council. It is understood that the ladies intend to set trees out in the park this fall.

I. F. S. Diven, of the Malheur Forwarding Co., discussed before the council the text of the new coal oil ordinance. Mr. Diven said in part--"I am in favor of the enforcement of the new ordinance as the present method used by the merchants in the storing and handling of oil and other explosives is most dangerous, but I believe the building of fire-proof oil houses the best plan. Until such steps are taken I hope the new ordinance will be enforced."

The oil dealers are to get together for the forming of some plan which is to be presented later to the council.

ELECTRIC POWER NIGHT AND DAY

Says Manager Carter of the Vale Light Co.--New Men Come In With Money.

According to the statement of Manager R. C. Carter of the local light plant, which has largely been taken over by the Telluride Power & Investment Co., of Salt Lake City, Vale will have a twenty-four hour electric light and power service installed within a month. At all events it may be November 1st, but it is coming sure.

The change was mentioned a week ago in the Enterprise just after the visit of a number of Salt Lake people, among which were J. J. Nunn, and L. L. Nunn, big electric power men of Utah, who are seeking new fields for investments.

Manager Carter now states that material is on the road for the installing of a three-phase system in the place of the single phase now in use. This change will practically mean the re-wiring of the city. The switch board at the plant is also to be changed so as to carry 2200 volts.

TALK ON NEW ZEALAND ENJOYED BY LARGE AUDIENCE

The talk on New Zealand by Mr. S. Stone at the Chamber of Commerce last Sunday afternoon was one of the most interesting ever heard in this city. A large number of people were out to hear Mr. Stone who has spent the last 46 years in that country and who has traveled in every section of the island.

The speaker told of the pioneer days in New Zealand, the customs of the cannibals that were found there at that time, and of the Maori war which took place later, and went on down telling of the present form of government, of the customs and of the country's vast resources. So interesting was the talk that many questions were asked Mr. Stone after he had finished his talk.

CRUSHED ROCK NECESSARY FOR BUILDING OF GOOD ROADS

Ralph Weaver, cashier of the United States National bank of Vale, who has returned from a trip into Harney county, states that good roads are the pride of Harney county officials. Much work is being done throughout that county in the improvement of roads. A rock crusher is kept busy grinding out material for foundation work. The soil found there is no different than in this county but officials have found out that crushed rock is necessary for the building of good roads.

The Oregon-Idaho Lumber Co. can save you money on your building material.

Whop in Vale eat at the Arlington hotel.

BUSY SESSION CIRCUIT COURT

Large Number of Civil Cases Settled and Dismissed--Criminal Cases Up.

The past week has been a busy one in the Circuit Court, a large number of both civil and criminal cases having been filed on the docket. The grand jury is still out, and thus far has returned true bills against Wm. Tulk, B. R. Frick, and H. N. Boehmer.

The case of the State of Oregon against Wm. Tulk was on trial Thursday. Tulk was up for stealing \$5 in money, some cigarettes and chewing gum from Murray & Shea on August 12th. The jury, after being out only two or three minutes returned a verdict of guilty.

B. R. Frick and H. N. Boehmer appeared before the court yesterday and pleaded "not guilty" to the charges in the indictments.

Boehmer's attorney filed a demurrer which was overruled and then demanded a separate trial. Frick's case was set for trial on Wednesday, September 14th.

The following cases have been passed upon, the majority of which were settled and dismissed.

Addie M. Lynch vs W. A. Tureman and Emma Tureman, recovery of damages, verdict for defendant.

Boise & Western Ry. Co. vs Mary R. Chidsey, condemnation; settled and dismissed.

Geo. Wright and Naomi Wright vs Clarence E. Johnson and Bertha Johnson, judgment for want of an answer.

Malheur Valley Ry. Co. vs Jessie Richardson, condemnation; settled and dismissed.

Geo. L. Phillips vs Robt. Tomb et al, to recover note; settled and dismissed.

L. Belle Lees vs Frank W. Mogan and J. H. Farley and others, to recover on note; settled and dismissed.

Oregon-Idaho Lumber Co., vs Samuel W. Gould, to recover on account; settled and dismissed.

American National Bank of Caldwell vs Clarence McDowell and Wallace E. Hubbell, to recover on note; settled and dismissed.

The American National Bank of Caldwell vs Clyde Robinson and Albert Lewis Rapp, to recover on note; settled and dismissed.

Malheur Forwarding Co. vs C. O. Thomas, to recover on account; settled and dismissed.

Ricker-Gheen Forwarding Co. vs W. L. Milliken, to recover on note; passed, settled and dismissed.

Homer I. Keeney vs Fred L. Johnson, to recover on note; passed, settled and dismissed.

Empire Lumber Co. vs E. B. Conklin to recover on account; default of defendant and judgment thereon and order of sale of attached property.

Sylvester Bond vs Allena Bond, divorce; findings and decree for plaintiff.

Minnie Odell vs Matthias Olk and others, foreclosure of mortgage, settled and dismissed.

State of Oregon vs Geo. Blanton jointly indicted with John Doe, for larceny of domestic animal; dismissed on written motion of district attorney, defendant discharged and his bail exonerated.

Geo. H. Bodfish vs John McNamee and wife, set for first day of January term, 1911.

I. F. S. Diven, guardian of Napoleon Wisdom vs H. M. Rutherford and Edgar Rutherford, appeal from Justice of the Peace court; set for first day of January term 1911.

CRIMINAL

State of Oregon vs Peter Becker; dismissed on motion of District Attorney, defendant discharged and his bail exonerated.

MRS. H. N. FORD ENTERTAINS

Mrs. H. N. Ford pleasantly entertained a large number of ladies on last Wednesday as a farewell to Mrs. F. L. Grimes. Progressive whist and flinch formed the amusement of the afternoon. The first honors in whist went to Mrs. T. T. Nelson, in flinch to Mrs. Gus Tucker of Ontario. The prizes were pretty hand painted plates. The guest of honor, Mrs. Grimes, was presented with a beautiful hand painted plate. Mrs. C. H. Oxman was awarded the consolation prize at whist. Dainty refreshments of ice cream, cake and coffee were served.

Methodist Episcopal Church.

H. E. McLeod, Pastor

Sunday School 10 a. m. Subject: "The King's Marriage Feast." Send your children we have good teachers.

Morning Service 11 a. m. Subject: "As Jesus Passed By."

Christian Endeavor 7 p. m. This service is designed to help the young people.

Evening Service 8 p. m. Subject: "The Race That Counts."

Everyone is cordially invited to attend these services.

BIG COMPANY WAITING ON RAILROADS

Before Placing 800,000 Acres of Land on the Market

MARVIN IS MANAGER

Oregon & Western Colonization Company Is Ready for Business --Manager Hints at Building of Boise & Western in Near Future--To Develop Land

Earl L. Marvin, formerly of Boise, has just been appointed Western manager for the Oregon and Western Colonization Co., which recently purchased the Willamette Valley and Cascade Mountain road grant of 800,000 acres, reaching from Vale to Albany. In Portland yesterday Mr. Marvin stated:

"The company has not yet been able to complete the appraisal of its large purchase. We are endeavoring to have an inspection made of ever acre, and will not begin the excursions of settlers until after the Oregon Trunk and the Boise and Western railroads shall have opened their lines to travel.

"Just at this time our concern is having an investigation made of the irrigable lands in our district. This will include the estimate of all the waters of that territory which may be subject to appropriation and surveys to ascertain what beneficial use may be made of them.

"It is probable that the Oregon & Western Colonization Company will give considerable attention to the problem of irrigation from pumping wells. The Harney Valley, and in fact all the valleys of Central and Southern Oregon, are underlain with sheets of water gravel which can be tapped at shallow depth. With the development of cheap power for the operation of the pumps there is a chance to place a great many additional settlers on the lands of this state. We are endeavoring to solve all of these problems before we begin an active campaign for settlers."

Good alfalfa pasture. Running Water. Inquire C. O. Thomas

PROJECT AT SKULL SPRINGS COMPLETED

S. W. Gould Spends \$20,000 For Watering Rich Soil of His Ranch--Contractor in Town

Otto Hero, who constructed the big dam for the S. W. Gould irrigation project near Skull Springs this summer, was in town on last Saturday. In speaking of the project, Mr. Hero informed the representative of the Enterprise that all the work for this year had just been completed although the big dam would be built much higher next year. Mr. Hero has been working on the job since last April. The big concrete dam will store enough water for the irrigation of between 1500 and 2000 acres of land owned by Mr. Gould. It is purely a private enterprise and means an expenditure of about \$20,000. Nearly all the ditches of the project are now completed.

Mr. Hero comes from Chicago where he is known as one of the best contractors in the country. He came to Oregon to visit his son-in-law who lives at Harriman, Harney county.

HARPER PROJECT AN IDEAL PROPOSITION

According to statements made by Assistant State Engineer Percy A. Cupper of Salem, who visited the Harper Basin Irrigation project last week, that project is the most feasible one yet proposed and surveyed in Malheur county. "I was greatly pleased with what I saw and I can't understand why a project of such merits has been laying idle all this time. I can't over-estimate the value of the irrigation and settlement of such a body of excellent land, not only to the immediate vicinity but to the state at large. Especially would such a project be invaluable to that part of Malheur county, where the successful completion of one project would be the means of getting many other feasible projects started in the same locality."

The land to be taken under the Harper Basin project is rich soil while the location is ideal for orchards on account of the elevation and protection by surrounding hills. The persons interested in this project are: C. H. Oxman, W. W. Caviness and Geo. W. Hayes of this city.

ROAD BUILDERS AT WORK NEAR WESTFALL

County Road Master Gibson while in town this week stated that a crew of road builders was now working on the grade this side of Westfall. Some of the largest boulders are being taken out and crushed rock will be used to fill in, thus placing that part of the county road into traveling condition. In other places, the worst holes have been filled in as best as possible, but the deep dust has proven a serious handicap. Bridges and culverts are also being improved and another crew is to be put on near Westfall in a few days.

P. J. Byrne and Ivy Kidwell, both of Weiser, were united in marriage in this city on Wednesday morning by County Judge B. C. Richardson.

On September 7th at the Drexel hotel County Judge Richardson married R. P. Parcell and Mary D. Fosco, both of Idaho.

Oakland Forty Travels Without Any Break Downs

Harry Ellis returned this week with one of Ford's "Oakland 40's" in which he had taken the Martin Bros. of San Francisco, owners of the Dalles Military Road, across the Interior. They left Vale on August 13th went on to Westfall, Burns, P. Ranch, Lakeview, Bend, Prineville and Shaniko, without a single break down, Harry reports a splendid trip.

SCHOOL WORK IS STARTED

Large Enrollment Requires Additional Teachers--Three are Still Needed

The public schools opened on Thursday with an increased enrollment over last year, which calls for three additions to the teaching force. Prof. Rogers has charge of the schools and teaches in the high school. An assistant will be secured right away.

Mrs. Gannon is teaching the 7th and 8th grades; Miss Chenault, the 5th and 6th; Miss Ridgley, the 2nd; Miss Raymond, the primary. Two teachers are still needed for the 3rd and 4th grades, which are now being taught by the other teachers.

PRIZES FOR CHILDREN AND WOMEN AT MALHEUR CO. FAIR

Mrs. H. R. Dunlop, who is in charge of the Culinary department of the Malheur County Fair, asks the ladies of Vale to send in exhibits of cakes, bread, jellies, cookies, etc not later than 11 o'clock on the morning of Sept. 27. Vale must win the blue ribbon in this event besides a number of splendid prizes, which are offered.

Mrs. T. W. Claggett, assistant superintendent of the Juvenile department of the Malheur County Fair urges the mothers to send in displays of their children's work in the line of drawings, sketches, paintings, burnt leather work, kodak pictures, dressed dolls, embroidery, home made candy, etc. Prizes are offered to the little folks under 14 years of age.

PROJECT AT SKULL SPRINGS COMPLETED

S. W. Gould Spends \$20,000 For Watering Rich Soil of His Ranch--Contractor in Town

Otto Hero, who constructed the big dam for the S. W. Gould irrigation project near Skull Springs this summer, was in town on last Saturday. OAKLAND FORTY TRAVELS WITHOUT ANY BREAK DOWNS

Harry Ellis returned this week with one of Ford's "Oakland 40's" in which he had taken the Martin Bros. of San Francisco, owners of the Dalles Military Road, across the Interior. They left Vale on August 13th went on to Westfall, Burns, P. Ranch, Lakeview, Bend, Prineville and Shaniko, without a single break down, Harry reports a splendid trip.

PROGRESS GROWTH AND ACTIVITY

Of This City--A Revelation To Prominent Visitor

VALE DOES BIG THINGS

Senator F. J. Miller of Albany, Grand High Priest of Oregon Masonic Lodges, Sees Wonderful Things Accomplished in the "Last Frontier" City

Filled with amazement and wonder at the great growth and business activity of Vale, Senator F. J. Miller of Albany, while in the city on Tuesday said to a representative of the Enterprise: "My eyes have been opened today. It is certainly most surprising what men of enterprise can do in the building up of a practically new country. Vale people certainly accomplish big things. Look at your splendid three story pressed brick hotel, the modern business blocks along these streets and the many new buildings that are now being erected, buildings which would do justice to a town 10,000 people. All this is a revelation to me. It shows enterprise! Your streets are busy--there's a rush and go that means business."

When it was seen that Senator Miller was really interested, the reporter began telling of the work just begun that day on the \$75,000 water and sewer system, which would cover the entire city limits; he was also pointed out the practically completed \$15,000 bath house containing the large plunger, supplied with the best medicinal and natural boiling-hot water in the country, and which was only a stepping stone in the plans of the proposed \$250,000 Vale Sanatorium. He was also pointed the big railroad warehouses and freight depot. He was also told that a few weeks would see construction work started on a new two-story brick high school building and on the \$20,000 brick passenger depot. Senator Miller stood silent and bewildered and only replied, "And you say Vale is only a town of 1200 inhabitants."

The Chamber of Commerce rooms were another revelation to the visitor. There he showed his surprise at the handsome quarters, the beautiful carpets, the modern and costly furniture. When told of the work that body was now doing--the \$25,000 that was practically raised for the purchasing of the 12 miles of railroad right-of-way and a 20 acre tract to be donated the Harriman system if the Huntington round houses, shops, and division point were located in Vale, and of other things that had accomplished through the Chamber, he said, "We have a commercial club in Albany, a city of 7000 people, but I am going back to tell the people there what Vale is doing through it's Chamber of Commerce. I'll tell them what real boosting and men of enterprise can accomplish. I wish some of our people could see the things I have seen today."

While in town Senator Miller also inquired into the oil situation. He had read about it and had imagined that it had been over-boasted. But to his surprise no one had talked oil to him until he had inquired about it. He found reports had not been exaggerated, that all drilling rigs were working and that the present indications for oil were better than they have ever been. Many of his friends are interested in the Vale field and his report to them will be a most favorable one.

Although Senator Miller is a candidate for railroad commissioner, he stated that he was not making a political tour. As Grand High Priest of the Masonic lodges of Oregon he had come to Ontario where on Monday night he had granted a charter to the lodge of that city and also installed the new officers.

To use his own language, "I could not refrain from seeing Vale after having heard for some months the reports of this wonderful growth and progress. It has really been an eye-opener."

REVOLVER FALLS TO GROUND, GOES OFF, MAN INJURED

B. M. Howard, who was accidentally shot at Brogan on Sunday is improving rapidly. With others Mr. Howard had gone out target shooting that afternoon. On returning to the delivery barn, one of the men pulled out a coat from the bottom of the wagon and in some way a revolver dropped to the ground, was discharged, the bullet lodging in Mr. Howard's leg. Mr. Howard is a young man, well known here, having played ball this summer in this city.

BIG ATTRACTION FOR VALE IN NEXT WEEKS ENTERPRISE

Don't fail to look in next week's issue of the Enterprise for the big ad of the Vale Hardware Co. It will contain just what you have been looking for--big and special bargains on stoves, heaters and all kinds of hardware. No doubt you are looking for a range or a heater this winter. Wait to see

DITCH DIGGING MACHINE HERE

Will Throw Four and a Half Feet of Dirt per Minute on Sewer and Water Ditches

The big ditch digging machine to be used by the contractor on the water and sewer system arrived in town a few days ago. It is stated that this machine will move thousands of feet of dirt per day or to be more exact 4 1/2 feet per minute. Superintendent Dutch is in Portland securing a large number of laborers as only a few could be found in this city. Work has already started but the coming week will see dirt flying in every section of town.

Some of the laborers will be put to work on the big reservoir site on the hill as it is the intention of the contractors to keep things moving as fast as possible.

If you want to sell your property list it with John E. Johnson & Sons, for quick sales.

OXMAN CHOSEN NEW PRESIDENT

Of the Vale Chamber of Commerce--G. W. Hayes Elected Vice-President

C. H. Oxman, first vice-president of the Chamber of Commerce, was elected president at the meeting of that body last Monday evening and Geo. W. Hayes was elected to fill the vacancy on the board of directors as well as the vice-presidency, thus caused by the resignation of Mr. Oxman. The president's chair had been vacant since the resignation of Major L. H. French. The new president will make good in the chair, as he is a forceful speaker, a good organizer, and a leader. He is also a booster for Vale and Malheur county, always taking an active part for the betterment of all matters that are beneficial to a city and county.

At the present time Mr. Oxman is one of the most active members on the board of directors of the Malheur County Fair Association.

At the meeting on Monday it was also decided that Vale should have a splendid display of fruits, and other farm products at the fair and Ferd Zutz was chosen to gather exhibits.

KANSAS FARMER SEES BLACK OIL

Brought Up in Bailer at Columbia Well--Pleased With Vale Oil Fields

After a visit of several days during which he thoroughly investigated the work being done in the Vale oil fields, C. P. Saunders, a farmer of Bannard, Kansas, returned to his home on Tuesday to report to a large number of his friends, who are interested in the oil development of this section, that prospects were never better and that present indications show that much black oil is seeping through the shale and is daily being brought to the surface in the bailer.

"The Vale field has certainly not been over rated" stated Mr. Saunders. "What I saw dumped from the bailer at the Columbia oil well, the other day, was certainly black oil and I know that it can only be a short time before the shale will be penetrated and oil sand, which must contain the gusher, entered into. The prospects are certainly very bright."

The other oil rigs in the field were also visited by Mr. Saunders who was very careful in his examination of every detail of the work that was being carried on. The Vale field will certainly be in good hands when he returns to his Kansas home.

"This is a wonderful country" went on Mr. Saunders, "Kansas prides itself on its corn fields but would you believe that in this section I saw some corn that would go 60 bushels to the acre and that would put my state to shame. Other products also grow here to enormous proportions. This is certainly a rich soil and Vale is bound some day to be the center of the richest agricultural and fruit growing section in the country."

BIG ATTRACTION FOR VALE IN NEXT WEEKS ENTERPRISE

Don't fail to look in next week's issue of the Enterprise for the big ad of the Vale Hardware Co. It will contain just what you have been looking for--big and special bargains on stoves, heaters and all kinds of hardware. No doubt you are looking for a range or a heater this winter. Wait to see
