Skating at Hunt & Selby's Hall on Tuesday, Thursday and Sunday.

**GOODING IS  
ELECTED BY  
WOOLGROWERS**

**Brother of Retiring President Now Head of National Association**

**WOOL TARIFF FAVORED**

**Growers Favor Creation of a Tariff Commission--Geo. Austin Is Elected Western Vice-President and R. J. Knowlin Eastern Vice-President**

After a session extending over four days, the delegates to the National Wool Growers' association finally got down to business on last Friday and adopted resolutions indorsing Schedule K of the tariff law and elected officers for the ensuing year. Omaha was named as the next meeting place of the national association.  
The last day of the convention did not produce the excitement which some of the delegates rather anticipated would result when President Gooding announced the time had come for the election of new board of officers. Instead the proceedings took on the appearance of being "cut and dried," and the new officers were elected with little opposition, though the Wyoming delegates were disappointed that the name of Dr. J. M. Wilson of Wyoming was not presented for the presidency of the association. They, however, soon saw it would be impossible to stem the tide in favor of Frank R. Gooding, former governor of Idaho and brother of the retiring president, and gave their support to his candidacy. Upon motion of Dr. Wilson, Mr. Gooding was nominated by acclamation.  
There was no contest on the other elective offices.  
The resolutions adopted affirm allegiance to the existing system of protection and unequivocally indorse the application of its principles as embodied in the present arrangement of schedule K as applicable to the wool duties.  
The statement is made that "the growers of wool need and deserve protective duties equally with the manufacturers of wool."  
The resolutions ask for a representative on President Taft's tariff board before judgment is passed by congress.  
The appointment of a committee to handle matters pertaining to the tariff for the association to be termed a tariff board and a national advisory board to confer with the chief forester is asked.  
Protest is made against the Persons bill. The speed limit bill is indorsed and investigation of freight rates is asked.  
Other officers were elected as follows: Western vice president, George Austin, Salt Lake; eastern vice president, A. J. Knollin, Chicago (re-elected). The secretary-treasurer will be chosen by the executive committee. Omaha was selected as the next meeting place. The states which did not elect committeemen will be served by their present officers unless changes are authorized hereafter.

**Fruit Blanc Mange.**  
Grape juice or the juice from any canned fruit may be used. Place the sweetened juice over the fire in a double boiler; when boiling stir in cornstarch and a pinch of salt, wet with cold water, allowing two table-spoonfuls of cornstarch to each pint of juice. Pour into molds.  
Skating at Hunt & Selby's Hall on Tuesday, Thursday and Sunday.

**BALLINGER TO  
HELP OREGON**

In a telegram to the Portland Commercial club, Secretary of the Interior R. A. Ballinger assures the club that necessary investigations will be made at once to ascertain if Oregon has been overlooked in getting its proportionate share of the \$20,000,000 reclamation fund apportioned by President Taft. Oregon's share according to the apportionment is but \$925,000, whereas the state has turned something like \$6,000,000 into the fund, and this insignificant amount would fall far short of carrying on the projects already under way and in such a shape that heavy losses would be sustained.

**The Uplift Movement.**  
When he left the house Saturday morning Burton yanked at the door as if he would pull it off its hinges. When he couldn't open it he started to grumble until his wife came to his assistance.  
"What'n blueblazes is the matter with this door?" he grumbled, giving it another powerful yank without being able to open it.  
"The trouble with you, John dear," the wife ventured, "is that you are always down on everything--down in the mouth, down on the world. Let me try it."  
With a gentle tug upward on the knob she easily opened the door.  
John was about to sputter out a sarcastic remark when the force of his wife's logic sank in his thick skull.  
"I get it!" he exclaimed. "I get the lesson."  
That afternoon when his wife visited his office she saw over his desk a little motto with the words, "Me for the Uplift!"

**WILL DOUBLE T. &  
K. MILL'S CAPACITY**

F. A. Gorman, secretary of the T. & K. Milling Co. of Payette, was a visitor in Vale last Sunday. After looking over the "Last Frontier" city Mr. Gorman was convinced that this city was the best town in the intermountain country. His mill has become noted in this section for its famous brand of flour, the Arrow Brand, and the sale of that brand of flour is increasing daily in this territory. He stated that new machinery was now being installed in order to double the output of the Arrow flour. J. H. Ricker, Jr. of the Ricker-Gheen Co. of this city, is the president of the T. & K. Milling Co. of Payette.

**Sally Lunn.**  
One egg, one small cup of sugar, creamed well together. Then stir well with a lump of butter the size of an egg, and beat all together, then add one cup sweet milk and stir well, then add three and one-half cups of flour that has been sifted three times and in which has been sifted two table-spoonfuls baking powder; also add a pinch of salt. Mix all well together. Bake in a loaf cake. Try it with a broom straw to see when done.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effectual for colds, croup and whooping cough and that it contains no harmful drug. Sold by Vale Drug Store.

**Puff Cake.**  
One cup sugar, one-half cup butter, two eggs, one-half cup sweet milk, one teaspoon baking powder, one and one-half cups flour; flavoring.

Stop at the Arlington hotel when in Vale.

**To Restore Injured Color in Fabrics.**  
When the color of any dress fabric has been injured or destroyed by an acid substance, ammonia should be applied to neutralize the acid, after which an application of chloroform will, in almost all cases, fully restore the original color. The application of ammonia is common, but the virtue of the chloroform application appears to be little known. As the coloring of your natural linen-colored chamberlay has been injured by the acid of orange juice, the above method treatment will serve without doubt to restore it and leave no trace of the injury.

**J. P. RUSK AND  
BEN SELLING  
ARE ELECTED**

**As Speaker of House and President of Senate of Oregon Legislation**

**BOWERMAN LOSES OUT**

**Legislature Convened on Last Monday in Salem--Many Important Questions Will Come--Reform Legislation Will Take Up Big Share of Session**

Salem, Jan. 9.—The Oregon legislature convened this forenoon and affected a temporary organization with Buchanan of Douglas county as speaker of the house pro tem, and Barrett of Washington county as temporary president of the senate.  
J. P. Rusk of Joseph, Wallowa county, was elected speaker of the Oregon house this afternoon. The vote was 35 for him and 22 against him. Eaton and Thompson withdrew.  
Ben Selling was elected President of the Senate, defeating Jay Bowerman by a vote of 17 to 8.  
Although Oregon through her initiative at the November election enacted some most important reform legislation, the twenty sixth session of the legislature which convened here today, will also see the introduction of many sweeping measures from present indications. The chief doubt now is whether the legislature will prove as radical as did the voters in November.  
In November the voters adopted a stringent employers liability law, a three-fourths jury law for civil cases a presidential preference measure and started after the single tax system through an introductory measure.  
The legislature will pass upon physical valuation of railroads, proportional representation, a state corporation commission, with power to relieve abuses even in the city public service corporations, a sweeping highways measure, that is intended to make Oregon the good roads state of the nation in ten years, and a number of other measures of state importance, if not of national interest.  
Reform legislation will probably occupy most of the session at Salem this year and while much of this legislation may not pass it is believed that no corporational measures or laws weakening any of the initiative system already in force or effect, will be adopted.

In order to keep warm these cold days, phone to the Oregon-Idaho Lumber Co., and tell them to send some of that famous Rock Springs Coal.

T. T. Nelsen has just received a new stock of the finest furniture ever brought to Vale.
