Declare War on Colds
A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of the "don'ts" which the doctors say will prevent the annual visitation of the cold:

"Don't sit in a draughty car."
"Don't sleep in hot rooms."
"Don't avoid the fresh air."
"Don't stuff yourself at meal time. Overeating reduces your resistance."
To which we would add—when you take a cold get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by all druggists.

SCHOOL ENROLLMENT IN VALE TOTALS 269
Twelve new pupils entered the Vale schools this week, bringing the total enrollment up to 269, as compared with 206 at this time last year. The rapid increase of school children in this city, says Principal C. A. Buring, will soon make it imperative to have more teachers, the 11 teachers now employed being barely adequate to properly handle the classes. Of the 269 children enrolled, 34 are high school students.
