PAINTING—I am now located in Vale and am ready for anything in the paint line, sign or house painting.—J. Dayl.

APPLES

Sydney, New South Wales.—W. J. Allen, a fruit expert of the New South Wales department of agriculture, is at present in London making inquiries into the distribution of fruit exported from the state.

The development of the fruit industry in New South Wales during recent years has been considerable, and large additional areas have been planted out, which will greatly increase the output for export within the next two or three years. The greatest attention has been paid to the production of apples, in view of the great demand for New South Wales apples in London.

BERLIN

Berlin, Germany.—The greatest valley dike in Europe is rapidly approaching completion and will be opened this year. It is situated at Hemfurth in the principality of Waldeck, and has been constructed at a cost of 20,000,000 marks.

The massive wall is 380 meters long, 30 meters thick at the base, and six at the top. It can dam up 200,000,000 cubic meters of water. No fewer than five villages and hamlets have had to make way for the colossal undertaking. These walls, built across a valley, to bar the river, have become very general of late years in Germany.

They serve the purpose of protecting the valleys from damage in case of floods, whilst the water collected in the basin, and which develops thousands of horsepower, is used for driving turbines. At the foot of the Hemfurth dike are a number of exits through which the water pours with enormous force into the machine houses. Thus the great expense of construction is more than defrayed within a few years.

CATHOLICS

There will be no services at Catholic church as the Rev. T. J. Brady is ill in hospital at Walla Walla.

Governor Foss is again running for governor of Massachusetts as an independent ticket.

Dr. Taylor Prospering. The Enterprise is in receipt of a letter from Dr. S. D. Taylor formerly of this city and who has taken up his residence and practice of medicine at Lostine, Oregon.

Dr. Taylor is very enthusiastic over his prospects at Lostine and speaks in glowing terms of the beauties and future possibilities of his new home.

Dr. Taylor's many friends will be pleased to hear of his success and are confident that Lostine will be a great gainer by having so capable a physician in their midst.

Both the Doctor and Mrs. Taylor are in good health and much pleased with Lostine.

Avoid Sedative Cough Medicines. If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers. Adv.

Subscribe for the Enterprise. COMMENT PRESIDENT WOOD is reported as saying that "free wool is of inestimable benefit to the cloth maker" and that "his concern will be able to compete successfully with the foreign manufacturer." Well, why not? We have contended all the time that the manufacturer was protected both ways, by a tariff and by ability to absorb the tariff reduction on wool. No one hurt but the government and no one benefited but the manufacturer.
