HOUSE OF GLASS TO BE EXHIBITED.
(Special to the Monitor)
Cologne, Ger.—Messrs. Taut and Hoffman, who constructed the monument of iron at the architectural exhibition at Leipzig this year, will also exhibit at the exhibition of arts, industry and handicraft which is to be held in Cologne in 1914. The monument referred to was constructed of iron, glass only being used to connect the T girders.
At the Cologne exhibition a house will be shown which, with the exception of the framework will be composed entirely of glass. The glass will vary very considerably in formation and coloring, and the experiment is looked forward to with the greatest interest, both by people connected with the glass trade and also by architects.

He Got the Job

A young man having applied to a wholesale house for a position recently found himself before the manager for examination. "Have you a bank account?" was his first question. "I have," was the reply. "Let me see your bank book," was the next request. After glancing over it and noting the long list of regular, though small deposits, he said: "Young man, you are engaged, and I want to compliment you on your saving ability. I always insist upon employing only men who have the good sense to save their money." We invite every young man in this community to open an account at this bank.
