OPTIMISTIC CHICAGO

"There is every cause for a conservative optimism in the business world." This is a statement of the business outlook for the year 1914 by Harry A. Wheeler, president of the National Chamber of Commerce and vice-president of the Union Trust Company of Chicago. "The business outlook for 1914 is better than fair," he asserted. "Merchandise stocks throughout the country are below rather than above normal and liquidation has proceeded during the last year to the extent of making the general business outlook much more promising than it was a year ago. We should remember, however, that the actual effect of the new tariff bill must be ascertained and the new currency bill must be proved as a practical working measure. "Another factor that will exercise a beneficial effect on the business of 1914 will be the granting of the increased rate of 5 per cent asked by the railroads. In many quarters it is believed the increase will be favorably acted upon by the interstate commerce commission. "There is every cause for a conservative optimism in the business world. This will not lead men to spread out or to enter upon speculative ventures, but legitimate business will, in my judgment, have little fault to find with conditions likely to be prevalent during 1914."

MOOREVILLE

Mooreville, Or. Jan. 2, 1914—Malheur Enterprise, Vale, Ore. Dear Sir: I have looked your paper over and over to find an advertisement but find none. Do you know of any one who has thoroughbred Barred Rock chickens? I want a good rooster, also want three Indian Runner ducks, the penciled Indian Runner. Lots of snow out our way, good sleighing. Mooreville has received no paper or parcel post mail for two weeks. No excuse for such mail service as the roads are fine. Sheep men are all feeding. Settlers have all taken their horses out to Vale to be fed for the winter. If you know of any one having the Barred Rock chickens or Indian Runner ducks I would like to correspond with them. MRS. ESTHER M. MOORE.

NEW BANKER ARRIVES IN VALE

The financial interests of Vale and Malheur county are to be well taken care of. Another banker arrived in town at the residence of J. S. Edwards and will be ready for the position as president in about 20 or 21 years. Some what shy of teeth and short on hair but neither one is necessary to sign a check. Mrs. Edwards is progressing finely but the present president looks somewhat despondent at the prospects of being superseded by the young son.

IMAGINATION

Time passes? No! Time is not. We pass. The whirling planet interposes itself between us and the sun, we say "night has come". The horizon warms with the glowing beams, morn is at hand. Held in the invisible but mighty grasp of the law huge planets encircle the central power, their sun, and behold a year has passed, but not a jot of time is not; we have measured and divided for our convenience but what we mean by time is merely a figment of our brain. Truth and Life. Where the seeking of truth begins, always the life commences, too; so soon as the seeking of truth is abandoned life ceases.—John Ruskin.

Protect Your Children's Eyes

THE greatest desire of parents is to see their children well nourished, strong and healthy—physically well equipped to make a success of life. Yet, how many parents are there who endeavor to protect that most important sense of all—the eyesight of their children by providing the most suitable light for the study hours? Modern methods of schooling and the necessity for completing their primary education at an early age imposes a severe tax on the eyes during the growing period of life. In many cases this strain weakens the eyes, or results in loss of sight simply because the little ones are compelled to study under a poor or improper light. Edison Mazda Lamps now afford the most suitable electric light to study by as well as for general home use, and furnish it at minimum cost. Give your children the benefit of this light. We will be glad to advise you as to the most beneficial way to use Edison Mazda Lamps.
