## TO THE SHEEP MEN

of Malheur County

THE undersigned will start a buck band on his ranch located near Westfall buttes, this fall.

I will come for the bucks as soon as they are through, feed, shear them and care for them till next fall at the usual rates.

I have good range, lots of water, and good grass. I will give them my personal attention, and will guarantee them to be in good shape for service when I turn them over.

Mrs. Rinehart visited Union, LaGrande, North Yakima and Seattle during her absence and returns with fresh strength and determination to push the enterprise of sinking the well in which Messrs. Frost and J. S. Edwards are also interested, to a successful conclusion.

## INTERESTING ITEMS FROM MOOREVILLE

**Rabbit Situation Becoming Serious Homesteaders Becoming Discouraged—School Directors Have Problem**

Mooreville, Aug. 28.—Ben Seward has returned from his visit to Ontario. Called at Mooreville this week.

C. L. Cook has finished threshing. Mr. Cook had the finest grain raised in the valley.

Charles Coutz celebrated his 54th birthday Sunday, with a big dinner, candy making, etc. All present had a very enjoyable time and left at a late hour wishing Charles many such birthdays.

Glen Moore is digging a well on his homestead and clearing brush. Glen is going right after the sage brush, expects to put in forty acres this fall.

It is getting to be a serious problem. What are we going to do about the rabbits? Why not form a club and have rabbit drives every two weeks with a big chicken dinner at noon and a fine for every one who stays at home without a written excuse from the president of the club? Let us get busy and start something or quit farming for the rabbits are taking everything. Homesteaders are getting discouraged.

Taylor Slack threshed for the first time this season and had about 75 bushels of rye.

Again our school directors are up against it. The question is where to have school. Deserted claim shacks are all there is and not many of those to choose from and not very desirable locations. The children complain of the want of light in all the buildings for school. The directors will do the best they can and hope by another year to have our own school house.

Mr. and Mrs. Everett Mickey have moved down on the lake to be near school this winter for Elmer and not for want of water as reported, as there is plenty of water on Rye Grass.

Any one desiring a good cook for threshing, haying, etc., or a nurse to care for small children can find a good one at Mooreville. At present he has a steady job.

James E. Young is back on his homestead.

Mr. Hanson is digging a well.

Mr. Harlan has gone out after another load of freight.

S. F. Sutton is building a large grainary and machinery hall. We are hoping Mr. Sutton will give us another dance when completed.

We are all feeling very much discouraged when we think of putting out crops and see the thousands and thousands of rabbits ready for them. The average homesteader is not able to fence against them and it is almost useless to try to raise anything only to have the rabbits take it as soon as it comes through the ground.

S. F. Sutton finished threshing, and had a good crop, as fine oats as I ever saw. Wheat and rye were both good and was all sold at the machine.

Commissioner Moore is on the other side of the mountain but is expected home this week.

Some one was prowling around the post office last night about midnight but was tacked by the big dog and given quite a tussle. Lost his knife but can have the same by calling at the post office. Jumped over the garden fence and crossed the lake. The dogs are very peaceful in the day time, but will not tolerate midnight prowlers.

W. E. Coder is clearing sage brush and breaking up new ground.

D. D. Hotten has left for the east. MOOREVILLEITE.

Now is the time to get into the stock business. High prices for beef and mutton has depleted the ranges. High prices will continue indefinitely.
