Oregon and Washington Gazetteer.

R. L. Polk & Co. have just issued the 1915-16 edition of the Oregon and Washington Gazetteer & Business Directory, which is the only work of the kind published. It contains an accurate business directory of every city town and village in Oregon and Washington, and the names and addresses of country merchants and professional men, lumbermen, etc. who are located adjacent to villages, also lists of government and county officers, state boards, statutory provisions, terms of court, names of courts, names of post-offices, express, telephone and telegraph offices, justices of the peace, hotels, daily and weekly newspapers, besides much other information useful to all classes of business and professional men. A descriptive sketch of each place is given, embracing various items of interest, such as location, population, distance to different points, the most convenient shipping stations, the products that are marketed, stage communications, trade statistics and churches.

An important feature is the classified Directory, giving every business arranged under its special heading, thus enabling subscribers to obtain at a glance a list of all houses manufacturing or dealing in any particular line of goods.

The work generally is compiled to meet the wants of the business community and is so thorough as to deserve its liberal patronage.

Beware of Ointments for Catarrh that Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you may possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in the U. S. It is taken internally and made in the U. S. It is taken internally and made in the U. S.

Economy in fuel consumption—Economy in tire mileage—Economy in upkeep—and greatest of all, Economy in the long run because of the everlasting quality. Buick cars are every day establishing remarkable fuel economy records. It was a Buick that won the Wisconsin Reliability and Economy Contest with an average of 24.8 miles to the gallon for over 500 miles.

Thousands of unsolicited letters from satisfied owners vouch for Buick economy of upkeep and records of tire mileage. For examples of Buick longevity and uninterrupted service, look to the various models, from the first one built. They're still in service—some of them in our home town. Built in Fours and Sixes \$900 to \$1650 (F. O. B. Flint, Mich.)

Come in and see the 1915 models. **Vale Garage & Machine Co.** Vale, Ore. Call on or write for demonstration.
