JANE COWL, FAMOUS BROADWAY STAR, IN UNIVERSAL FILM

"The Garden of Lies," an Artistic Triumph for the Beautiful Stage Favorite.

Those of us who had the good fortune of seeing beautiful Jane Cowl in "Within the Law," and other big stage successes will be intensely interested in the screen debut of the talented star.

Tonight, The Rex Theatre will present "The Garden of Lies," by Justus Miles Forman, thereby giving motion picture admirers an opportunity of viewing Miss Cowl on the screen.

There is no gainsaying that Miss Cowl won just recognition of her splendid acting powers in dramatic

BEAUTIFUL JANE COWL Famous Star of THE GARDEN OF LIES A Big Universal Feature

work such as she does in "The Garden of Lies." This story, which is taken from the novel of that name, is a romantic drama chock full of thrilling situations with an unusual love story. It is this particular style of acting, the chief feature in "The Garden of Lies" in which Miss Cowl is seen to greatest advantage.

An American girl, who falls in love and marries a prince, while in London, and meets with an accident, losing her memory is the prelude to a series of tense and gripping situations which are unfolded in an artistic and masterly manner.

"The Garden of Lies," will do both Jane Cowl and the Universal credit and will be appreciated by the general public.

WILSON LIKES DEFENSE PLANS

(Special to the Enterprise.)

Washington.—The administration program for national defense to be recommended to the forthcoming session of congress, proposing a total expenditure on the army and the navy next year of about \$400,000,000, was practically completed. Secretary Garrison's plan, approved by the president, calls for an increase of \$75,000,000 in the war department's annual appropriation to be used for augmenting the regular army to 140,000 men and the creation of a new continental army of 400,000 men.

Approval also was given to the proposal of Secretary Daniels and the general board of the navy for a five-year naval construction program to cost \$500,000,000, giving the navy 10 new dreadnoughts and six battle cruisers, as well as more than 70 submarines, 50 destroyers, 10 scout cruisers and a host of auxiliary ships.

The plan of Secretary Garrison is as follows:

Enlistment of 128,000 "continentals" every year to serve at training camps two months annually and, after three years' service, go in the reserve corps for three years, making six years' service in all. After six years this would constantly provide an active continental army of 400,000 and a reserve of 400,000, as another 133,000 would be mustered out annually and as many enlisted.

Increase Regular Army to 140,000. Increase of the regular army from the present force of 97,100 to 140,000. By changing the enlistment term requiring the regulars to serve two years actively and four more years in reserve, by 1922, the reserves, it is estimated, would be 280,000 men and the regular army still 140,000 or 420,000 in all. These figures are based on belief that about 70,000 would serve out their active term annually and would then be in the reserve corps for four years more.

Continuance of state militia aggregating 125,000, the present force, but under federal control and with increased training and equipment. The army aviation corps planned, while not as large as those of Europe, to consist of four squadrons with 12 machines each and extra dirigibles and war balloons. It is believed, would be ample for scouting purposes.

The Russians had dug out, the Teutons have dug in, and the Allies now want us to dip up.—Indianapolis Star.

RIGHT NOW!

Is the time to buy your fall and winter suits. Our stock is all new and complete. Everything in the store of new designs and the latest models.

High Art Suits

The kind we have been selling for a quarter of a century. About time we know all about them.

\$15.00 to \$25.00

Come in and let us show you the High Art Clothing

GERMANS BATTER WAY INTO SERBIA

Defending Army Fights with Desperation, Few Prisoners Being Taken.

Berlin, via London.—The German and Austrian forces continue battering their way into Serbia and the gateways to the strategically important Morava valley are now in German hands.

The Serbians are making a desperate resistance and reports of the battles fought show that these are bloody with few prisoners taken. Instead of retreating at the first sign of the enemy, the Serbians fight hand to hand until crushed by overwhelming numbers. They seem to feel that the outcome of the whole war depends on their resistance.

The Serbians had entrenched themselves thoroughly and their defense held well on the river fronts, but the heavy artillery of the Germanic forces made it impossible for their opponents to hold Belgrade, Semendria and Posarowitz.

A great battle is now raging in the hills south of Belgrade. Here the Serbians under British plans have built four strong defensive lines which were almost forts.

The German official communication, says of the progress of the fighting in the Balkan war theater:

"All the heights south of Belgrade are in German hands.

"General von Gallwitz' army has thrown the enemy behind Katja, southwest of Semendria. General Hoyajeff's Bulgarian army has forced a passage of the lower Timok and has stormed Gopovica mountain, 1195 meters high, and has taken prisoners 200 Serbians. He also took eight cannon. The Bulgarians also have advanced toward Piro.

Civic pride has much to do with the prosperity of a town and everything to do with its attractiveness. A run-down-at-the-heel town is never prosperous. It is a standing advertisement of its own shiftlessness. It does not appeal to the investor, the homeseeker or the seeker for a business location. It is not enough that you clean up and put in order your own premises all the others must be put in order. That can be accomplished only through a prevailing civic pride directed into a operative effort.—Cedaredge West Slope.

Now is the time to do your Christmas shopping, especially if you have friends in the trenches of Europe.

A deed to 978,055 acres of land was filed recently at Dalhart, Texas, the price being \$4,736,000; \$50 in revenue stamps was attached.

A downpour of inky black water was witnessed by the residents of Barryville, Pa. Many caught the unusual liquid in pails and a specimen has been sent to the state laboratory for analysis.

Of the total world production of commercial cotton in 1913 the United States contributed 60.9 per cent. Next to corn, cotton is the most valuable crop grown here and it is the largest single item of export.

A section foreman on a railroad was ordering a list of supplies. He had completed his letter when he found he was in need of a "frog" for a switch, so his letter ran as follows: Mr. Supervisor.—Dear Sir: You will please ship me some pick handles, spike mauls, spikes and wrenches. Yours truly,—PAT HOGAN, and a frog."

Europe is said to be carefully watching the United States steps in Mexico. In all probability with the impression they are goose steps.—Chicago Herald.

The annual reunion of the Sprinkle family at Logansport, Ind., was postponed this week on account of rain.
