POWER LINE PROGRESSES

School Visited by Superintendent and Workers—Owyhee River Still High and Gardens Under Water.

OWYHEE, Oreg., April 17.—Miss Fay Clark, county school superintendent, visited the Owyhee school Friday. She was accompanied by Prof. L. P. Harrington, state industrial club worker, and Miss Davisson, the Domestic Science teacher from Vale, each of whom gave a very interesting talk to the school and patrons. The parents were especially interested in Miss Davisson's talk because they are planning to serve hot lunches in the school next year. While Prof. Harrington found very attentive listeners among the children most of whom are very successful club workers.

Work on the power line is progressing rapidly. The poles are now being set and the line bids fair to soon be in working order.
