VOLUME VIII NO. 39.

VALE, OREGON, SATURDAY, AUGUST 25, 1917.

MALHEUR COUNTY OFFICIAL PAPER.

SUBSCRIPTION \$2.00 PER YEAR

SHALL FARMERS GET IRRIGATION?

800 Per Cent Profit Will Be Made By Land Owners Under Warm Springs District, Conservative Estimate.

DECEIVING FIGURES MAY CAUSE LOSS OF THOUSANDS

It has never seemed right that, simply to gain some point in debate or argument, figures should be used to deceive and in some, if not many instances, work a real hardship, hinder development, and cause a loss of thousands of dollars, or at least prevent the earning of thousands of dollars by those who could well use the money.

The question of propriety, from a business standpoint, of borrowing money on which to do business, is not worthy of discussion from a practical standpoint today. Business is built upon credit and the credit system. To change the system would be reverting to barbarism.

This article is prompted by the fact that figures are being presented showing that the Warm Springs Irrigation District should not borrow money for the purpose of developing this valley. The great sum of interest and principle for 30 years has been and is being exhibited to many timorous individuals with the explicit announcement that it would bankrupt every man in the valley.

At no time has the other side of the ledger been represented. At no time has there been any showing of the result of spreading water in sufficient quantity for complete irrigation every year, over the rich alluvial land of which this great valley is made up. No showing of the result of turning the stored plant food, accumulating for ages on the benches surrounding the valley, into food for the millions waiting for it.

Let us take a few concrete instances. The records show that there has been borrowed by certain individuals in Malheur county the following amounts of money on terms and with the results noted:

A—Who is a farmer, has borrowed \$8,000 at 8 per cent which has run 8 years and is able to pay the principle today but does not because he is making the loan profitable at the interest mentioned.

B—Has owed an average of \$10,000 for upwards of fifteen years. Is a farmer. He paid 6 per cent interest. Has paid off all of his debt except \$2,500 and can pay that any time but is using the money to advantage.

C—A farmer, has paid 9 per cent on \$8,000 for ten years. Is now worth probably \$20,000. Does not pay the debt because the money is profitable at the rate.

The people in the valley who owe considerable money on which they are all paying interest exceeding 8 per cent are numerous and are also prosperous. Every one of them claim that they could double their income with water.

It appears to an observer with some experience: That it is not the amount of the debt nor the interest paid, but the result of the use of borrowed capital that counts. What will the use of the money enable the valley to produce? That is the question, and that is the only question. On one side of the ledger we put the loan and the interest: On the other side we place the production and its price less its cost. The resulting balance decides the question. The balance should be large on the production side; if not large it is as though the balance was on the other side. There must be no doubt as to the result. Every possible human contingency must be considered with reason and probability. When this is done we must abide by the result. High prices must not be placed in the result. They are only an incident on the road and an increment of safety.

To bring reason to bear on this subject it is only fair to compare the possible result here with the actual result elsewhere. The arid lands of the great plateau east of the Cascades and west of the Rockies are about all of the same general character. While the sandy land of the Umatilla will require a vast amount of moisture, the bench lands of our county will require but little and the valleys a somewhat greater amount than the benches.

BONDS REVIEWED

Payette-Oregon Slope District Bonds Declared Regular and Legal by Circuit Court.

Circuit Judge Dalton Biggs Wednesday afternoon, in Vale, examined the proceedings in the Payette-Oregon Slope Irrigation bond issue and declared them to be regular and legal. Claude McCollough of Portland appeared for the district in the hearing.

LEAVE FOR TRAINING

Duncan and Vines Leave for California to Enter Officers' Reserve Training Camps.

Robt. M. Duncan and John Vines left the first of the week for San Francisco from where they will enter the officers' reserve training camps. Their many friends wished them well, and expressed their appreciation of the sacrifices these men are making in entering the direct service of the Republic.

sides of our ledger will show: On one side The principal \$ 750,000 Interest at 6 per cent for twenty-one years 945,000 Interest for the remaining 9 years 245,950 \$1,940,950

On the other side of the ledger: 12,000 acres now producing 3 tons of alfalfa hay per acre. With water the full production may fairly be placed at 6 tons per acre, or an average increase of 3 tons per acre. 18,000 acres of new land will produce an average of six tons per acre, or its equivalent.

In all of our calculations we use hay. If other crops are raised the ratios remain the same.

It is fair to place the gross value of hay at \$6 per ton and it is also fair to place the cost of raising at \$2 per ton.

With these calculations as a basis we can make up the producing side of our ledger.

Increase of 3 tons per acre at \$4 per ton per year for thirty years, 1,080,000 tons \$ 4,320,000

Eighteen thousand acres producing 6 tons per acre per year at \$4 per ton, 3,240,000 tons 12,960,000

The total production from which cost has been eliminated \$16,280,000

No accounting has been made for eggs and poultry production on the side which pays the taxes now and will always do so. These are large figures on both sides. The production side is far less than actual income would be, but we must figure safe.

Let some timorous individual whose entire charge is say \$7.50 per acre put his interest and his principle into the balance against what he knows his increased production will amount to and ponder on the result and then wonder why he should worry over who builds the dam provided that it is built.

Is the production side large? Let any farmer who has kept his books for ten or twenty years figure back and put down the total production of hay for the time.

The value of irrigation cannot be questioned. It will not be questioned except by the utterly ignorant.

The populous countries of the old world exist through and by irrigation. The greatest nations of antiquity were great through the use of water for producing. Egypt, a desert without and a paradise of production within. Belgium, just about the size of Malheur county, with eight million people as against our 10,000. Argument seems ridiculous but we are arguing with ridiculous opponents.

Cut and slash as they may: How and fight as they will: The figures refute every argument. The past refutes every argument against the opponent of progress. The present shows the foolishness of delay and damns obstruction with high prices for produce. Those who had a partial right could have paid the entire bill this year and those who have no right might have been well on the road to security from debt had the dam been constructed last fall.

Will it be constructed this fall? Who knows? Those who have the responsibility will try, so they say, while those others who desire to assume the responsibility for those who prefer to use their own judgment, may successfully obstruct progress for another year. Sincerely we hope not. Sincerely we hope Malheur county will come into her own. Sincerely we hope the clap-trap of petty politicians will not be heeded. Sincerely we hope that development and population will come to our country as it has come and is coming to our neighbor state which is blessed with progressive legislators who love their state and work for their state with the feeling that justice to a part of the country is justice to the nation.

As to Government aid, it is always acceptable, and might well be asked for even though bonds were in the hands of a private investor, the District might be well able and willing to pay the possible premium for redemption in order to transfer the security; but to sit supinely by, and suffer from lack of water, looks like taking an unconscientious advantage, of providence under circumstances of distress.

Red Cross Issues

Call for Knitters

MORE WORKERS WANTED

Before Cold Weather Comes Enormous Quantities of Knitted Garments are Needed.

The Vale chapter of the American Red Cross has received an urgent call from headquarters to put all stress on a campaign to secure as many knitters as possible as the call for much needed knitted articles of clothing is far in excess of the supply. Already the local chapter have a number of knitters who have made some beautiful garments as socks, wristers, mufflers and other smaller articles. Mrs. B. F. Farmer gives two afternoons a week teaching beginners, and her classes are making splendid progress. If you cannot be at the Red Cross rooms for work afternoons take a few lessons in knitting and take the work home for you can accomplish much in spare minutes. Mrs. Farmer will instruct beginners on Monday and Saturday afternoons. Bring your yarn and come.

Following is a letter received by the local chapter from the headquarters at Washington, D. C., which shows the immediate needs of the army:

Fay Clark, secretary Malheur County Chapter American Red Cross, Vale, Oregon: A cable appeal for the immediate shipment of supplies to France reached the American Red Cross from Major Grayson M. P. Murphy today.

The cable received emphasizes the urgent need in Europe for vast amounts of hospital and knitting supplies.

Major Murphy cables: "Begin shipping at once one and a half million each knitted mufflers, sweaters, socks, and wristlets. These are desperately needed before cold weather. In view of the shortage of fuel and other discomforts they will be of incredible value in both military and civilian work."

"Last winter broke the record for cold and misery among the people here. They inexpressibly dread the coming winter find us without supplies to meet the situation. I urge you on behalf of our soldiers and those of our allies who will suffer in the frozen trenches. Thousands of Belgian and French refugees and repatriates are being returned through Switzerland to France."

"That the work should go forward as rapidly as possible, and with no chance of 'falling down,' an allotment of the great task is being made by the national authorities to the thirteen division managers of the Red Cross who direct its administration under the new decentralization plan.

The division managers, when they have been informed of their territory's total share, will divide the work among the chapters in their divisions. The allotment system follows the general spirit of the Liberty Loan and the Draft Army. Each section of the country will have its specified part to do. The work must be done with all possible speed. Finished articles will be shipped from the chapters to the nearest point of trans-oceanic shipment under national directions.

Negro Soldiers Kill

Houston, Tex.—Twelve white men, civilians, police officers and national guardsmen, were killed and more than a score of persons, men, women and children, were wounded in an outbreak here Thursday night of negro soldiers of the Twenty-fourth United States infantry, stationed here to act as guards during the construction of Camp Logan, at which the Illinois national guard will train. It is not known how many negroes are dead.

DRAFT EVADER CAUGHT IN ACT

Local Man Attempts to Hide Behind Shirts of Wife, Whom He Does Not Support.

CHARGED WITH PERJURY TO WILLFULLY EVADE SERVICE

Charged with perjury in a willful attempt to evade service under the draft law and upon failure to give \$1000 bonds required by U. S. Commissioner R. M. Stearns of Ontario, Morris McCarty of Vale was committed to the Multnomah county jail to await further action by the Federal Government.

Before the local board, McCarty alleged a dependent wife, as grounds for exemption from military service, and swore that he was her sole support. Upon receiving the blank forms with McCarty's affidavit Mrs. McCarty promptly returned them to the district board with an affidavit to the effect that McCarty had turned her out last November and had not contributed to her support since that date. Sheriff Ben Brown immediately had McCarty arrested and telegraphed U. S. Attorney Clarence L. Keames of Portland for instruction. In answer to which N. S. Deputy Marshal D. B. Fuller arrived Thursday and after McCarty's waiver of examination before Commissioner Stearns and failure to provide bonds, escorted him to Portland. Severe penalties must follow such cases of deliberate evasion of duty.

Malheur County Boy in Trenches

Douglas McDonald, of Nyssa, a Winnipeg Highlander, in the Trenches Since November.

Douglas McDonald, son of Mr. and Mrs. Alexander McDonald of Nyssa, who joined the Winnipeg Highlanders has been in the trenches since last November. So far as his parents can find out their son is the first Malheur county boy in the trenches.

Use Phosphorus

The I. W. W. are preparing to use phosphorus with which to burn grain fields and grains held in storage throughout Idaho, according to advice sent to the sheriffs of the state by Harvey Allred, director of the state farm markets bureau.

Phosphorus is also to be used in Oregon and Washington.

Allred advises the sheriffs to guard closely against fires and to arrest all suspicious-looking strangers.

Coal Dictator Named

Washington—Government control of the coal industry was made almost complete Thursday night when President Wilson named Dr. H. A. Garfield, president of Williams college, fuel administrator, fixed anthracite prices for producers and jobbers and set a limit on profits to be made by bituminous wholesalers.

Greatest Battle Fought

With the French Armies, Aug. 21—The world's greatest battle is being fought today.

From the seacoast to the Swiss frontier, over a front of four hundred and thirty-five miles the Allied forces are fighting practically a continuous offensive.

Art Springer of Cow Valley, who is engineering a Caterpillar for Frank Curl of Fredleton is expected home in two weeks.

County Fair at Ontario a Big Event

FAIR BOOSTERS BUSY

Something Doing Every Minute is the Plan of Directors in Charge of Arrangements.

The Malheur County Fair this year will be a bigger and better Fair than any held heretofore. The Fair Board has been very busy arranging a very attractive program. Several new features have been added this year, including automobile races each day as well as the usual number of harness and running races.

One particular feature of this year's entertainment will be the relay races. These races are always attractive and exciting. The management this year offers a purse of \$100 each day for both men's and ladies' relay races. Several entries of relay horses have been promised and no doubt will be entered.

There will be balloon ascensions as well as other free vaudeville acts. The Agricultural and Horticultural exhibits promise to be much larger than other years. In fact the capacity of the exhibit hall will be taxed to the utmost. The directors have increased the premiums for agricultural exhibits and merchants of Ontario and surrounding towns are offering a very large line of premiums for practically every article that will be exhibited.

Miss Fay Clark is arranging a very interesting school exhibit in department P. One of the features of Miss Clark's department will be a canning contest to be carried on in the exhibit hall two days of the Fair. Suitable prizes will be awarded to the young lady who excels in the canning industry.

Another feature of this year's Fair will be the automobile show. Dealers from the Intermountain country will be present in large numbers and exhibit the various cars. The automobile races will be made up of stock cars which are exhibited at the show. A large portion of the Fair grounds just east of the exhibit hall has been allotted to the automobile men and a great many entries have been received for exhibitors.

The livestock departments all promise to be well filled, especially the sheep and hog departments. Very large premiums are offered in all livestock departments. One thing that will be especially interesting to the stockmen is the fact that on the last day of the Fair there will be an auction sale of pure-bred stock on the Fair grounds.

The amusement in the city during the Fair are perhaps better than any other year before. The Sound Amusement Co., an aggregation of some twenty five shows, have the carnival privileges this year, and this together with other concessions in the way of athletic shows and dances, will keep the crowds amused and entertained during the evenings.

Ample hotel accommodations are being provided and private homes are being thrown open so there will be accommodations for all, although it is well to engage rooms in advance. The Premium Lists are all out at the present time and ready for mailing and will be gladly sent to anyone upon request.

Sumpter to Rebuild

Modern construction and model business town to replace the frame building of the one time booming mining camp, are the plans now under way by the citizens of that city. Although the fire destroyed practically the entire town reconstruction has already commenced.

Mrs. A. J. White is registered at the Drexel Hotel this week.

GRAND JURY MEETS

Will Meet Next Monday--Circuit Court to Convene the following Week to Hear Cases.

Following are the members of the grand jury that have been drawn for the September term of court and their precincts. The grand jury will meet next Monday:

Grand Jurors. Frank Draper, Ontario; Ed. L. Sizemore, Beulah; F. M. Housh, Nyssa; J. E. Holly, Big Bend; Harvey Hatch, Big Bend; V. J. Hopkins, Juntura; F. S. Bailey, Cairo.

The jury panel drawn for this term of court, which will convene on September 9th, is as follows:

Trial Jurors. C. F. Cox, Ontario No. 2; Chas. R. Purdy, Big Bend; Clinton Woodward, Riverside; Charles Bullard, Arcadia; Hoy J. Benson, Weiser; Bert Robinson, Big Bend; Dan Gallagher, Juntura; Herbert Stewart, Cairo; L. A. Green, Nyssa; V. B. Staples, South Vale; A. E. Rutherford, Cairo; Andrew Greeley, Rockville; Geo. L. Phillips, Nyssa; J. M. McEwen, Cord; J. W. Willis, Nyssa; L. L. Culbertson, Snake River; C. A. Marshall, Arcadia; George Strode, Rockville; S. P. Colt, Basin; Chas. A. Cook, Fair; William Helm, Jordan Valley; R. H. Hart, Juniper; John Murphy, Beulah; H. L. Poorman, Ontario No. 3; Eugene D. McCoy, Ontario No. 1; F. H. Van Wyngarden, Riverside; W. L. Brodrick, Bully; S. R. Copeland, Skullspring; W. P. Allen, Jones; Ralph A. Duncan, Ironside; A. Gramse, Fair.

MOVES GROCERIES

One Garage to be Enlarged--New Garage Under Construction--Vale is Prosperous.

During the week several business changes have been announced and partially completed. I. F. S. Diven's stock of groceries has been moved to the corner room formerly occupied by the Malheur Forwarding Company and later he expects to put in a line of dry goods.

Saxon Humphrey has moved his stock of hardware to the east room of the M. F. building where that business will be permanently conducted. His garage will be enlarged to occupy the entire quarters formerly used by the garage and hardware departments.

Construction on the new concrete garage building for H. E. Young is progressing rapidly.

OCHOCO VALLEY "MADE"

\$900,000 Bond Issue Will Construct System to Irrigate 22,000 Acres Near Prineville.

After seven months of careful investigation and arrangement of the financial and construction details a syndicate headed by Stephens & Co., with offices in San Francisco, Los Angeles, San Diego and Coronado, Cal., and by Clark, Kendall & Co., of Portland, has underwritten a \$900,000 bond issue for the Ochoco irrigation project, in Crook county, Oregon, and has let contracts for immediate construction work.

This work is to begin within the next 20 days, probably on September 5. To the Twoby Bros. company, of Portland, has been awarded the contract for construction of the project dam and the first 15 1/2 miles of canal.

Prineville Center of Project. Announcement of the underwriting of the \$900,000 bond issue by the syndicate, and of its plans for the immediate development of the project, which is to be completed by May 1, 1919, was made this week by Ralph I. Schneeloch, of Clark, Kendall & Co.

Until then it had been known by only a comparatively few persons that negotiations for the forming of the syndicate and development of the project were under way. The conservative and safe course of completing all preliminaries to actual construction before giving publicity was followed by the men interested.

The Ochoco project centers about the town of Prineville, in Crook county. With its completion, 22,000 acres of rich land will be placed under irrigation.

EDUCATORS TO SPEAK

Institute Program Dates Will Be Filled by Prominent Men and Women of Education.

A number of prominent educators including Dr. E. B. Conklin, head of the Psychology department at U. of O., Professor E. D. Reaser of the Department of Education at A. C. C., State Superintendent J. A. Churchill, H. C. Seymour, state industrial club leader and Mrs. Ida May Smith, supervisor of Primary Work at Eugene, will be in attendance at the county teachers institute to be held in Ontario September 12, 13, and 14. The Ontario people are planning on royalty entertaining the visitors, an auto ride over the valley will be one of the features of this entertainment.

FORM COUNTY DEFENSE COUNCIL

Council of Patriotic Service Organized by Malheur County Citizens Last Monday in Vale.

ENTHUSIASTIC CROWD MET AT VALE COURT HOUSE

In answer to the call issued by County Judge Geo. W. McKnight, about fifty citizens from various parts of the county assembled in the office of the county court and proceeded to organize the Malheur County Council of Patriotic Service along the lines suggested by Bruce Dennis, director of work of the Oregon Council of Defense.

Judge McKnight called the meeting to order and explained the reasons for calling the citizens together, stating that this nation having entered the war, all other considerations must give way before the one great task that now lies before us--namely the successful prosecution of the war; and as the State Council of Defense, which is working directly with the National Council, had requested him to issue the call and undertake the organization of the county council in order that the residents of Malheur county might be organized to lend whatever assistance that might be required of them in maintaining the peace and order within our own communities and to assist the government in its campaigns for increased production and economical consumption of the necessities of life and materials for the war, he had issued the call for this meeting and he would now leave it with the citizens to proceed as they might determine.

Stirring patriotic speeches were made by W. E. Lees, W. D. McCollough, G. K. Aiken, P. J. Gallagher and Col. Taylor of Ontario; C. C. Wilson of Nyssa; M. N. Fegly, George W. Hayes of Vale and several others. Mrs. Anna B. Pritchett requested that the meeting petition Congress and the President to define the war aims and to make public the conditions upon which peace might be obtained. Her suggestion was characterized as unpatriotic, and Mr. Lees declared that it even bordered on the edge of treason.

A nominating committee consisting of M. N. Fegly of Vale, C. C. Wilson of Nyssa and W. D. McCollough of Ontario selected a committee of eleven which were unanimously elected as the Executive Committee of the Malheur County Council of Patriotic Service.

The executive committee met immediately after the adjournment and proceeded to organize, after which they adjourned to meet this afternoon, Saturday, at Ontario when they will perfect a working organization.

The committee is composed of the following with the officers chosen as indicated: C. C. Mueller of Vale, chairman; Geo. W. McKnight of Vale vice chairman; P. J. Gallagher of Ontario, secretary; Ben J. Brown of Vale, Frank Miller of Big Bend, J. Boydell of Nyssa, S. F. Taylor of Ontario, T. M. Lowe of Owyhee, S. M. Willis of Brogan, J. D. Fairman of Westfall, and John Weaver of Ontario.

LABOR SYMPATHISERS

I. W. W. Leader Arrested--Northwest Strike Called for Monday Failed to Materialize.

Spokane--The Central Labor council of Spokane on Tuesday passed a resolution denouncing the raid on the Industrial Workers of the World headquarters here and the arrest of 27 members of the organization without warrants.

The resolutions demand a general strike to be declared in Spokane of all the union labor men, unless James Rowan is released.

Strike Failed

Portland--Not more than 150 I. W. W. have quit work in response to the organization's general strike call for Monday.

United Press dispatches from various points in Washington, Idaho, Montana and Oregon today emphasize the complete failure of the much advertised I. W. W. walkout.

Arrest Leader

Spokane--The federal government, Sunday, took a hand to stop further troubles by the Industrial Workers of the World in the northwest.

James Rowan, who has been the moving spirit in the organization's propaganda in Spokane and vicinity, was taken into custody by the federalized militia and is being held under a strong guard of soldiers.

Twenty-six other I. W. W. also were arrested. Mr. and Mrs. Marvin Strout, Mrs. A. O. Springer and son Eldred and Mrs. L. White were guests of Mr. and Mrs. Andrew White and daughter, Thelma, over Sunday.

County Board Exempts Married Men--More are Examined

Friday, August 24, is the last day of examinations, the local board having, in all, called the first 265 registered men for examination. So far 38 have been certified from the first 118 to the district board, leaving only 27 more needed to fill Malheur county's quota of the first draft. Friday was also the last day for filing proof of exemption claims, as far as the first 118 are concerned.

All week the court house has been a busy place while the "Local Board for County of Malheur, State of Oregon," consisting of Sheriff Ben J. Brown, Dr. F. J. Brown and Atty. Bruce R. Keater, have been kept busy examining, making the required records, etc.

Must Appeal Discharged. Of those out of the first 118 who asked for exemption on grounds of having dependent relatives, the following have been granted discharge by the local board. These cases will, however, be automatically appealed by the government to the district board at La Grande. Attorney Robt. D. Lytle has been recommended to handle these appeals, as prosecuting attorney, R. W. Swagler, is of draft age and therefore disqualified to act under the regulations.

- 487 Boyd, William Earl, Vale, Ore. 44
789 Anderson, Oliver Frank, Bonita, Ore. 51
