POLITICAL DOPE SHEET SAYS "HOSS RACE ON." SENATE, GOVERNORSHIP AND TREASURER CONTESTS CLOSE.

There is goin' to be a "hoss race," in fact a full "card" of races for the various political offices to be filled by the voters of Oregon this year. tions not until next November, the campaigns for U. S. Senator to fill the unexpired term of the late Harry Lane, for Governor and for State Treas-

urer are already under way. Especially in the Republican camp do the preliminary contests promise excitement to the spectators.

Chas. L. McNary, who is now Senator by appointment, will be a can didate to succeed himself. His principal opponent in the Republican primaries, as indicated by the early dope sheet, is Robert N. Stanfield. Others in the race are S. B. Houston, state senator from Multnomah county, and gossip continually refers to A. C. Marsters, of Douglas county as a sure candidate. Dark horses may yet appear as aspirants have until April 12 in which to file their declarations. Stanfield is considered strong in Eastern Oregon and McNary is strong in the Willamette Valley. Both are young men of a progressive type and are surely worthy contenders for the high honors. The race is supposed to be decided in Multnomah county and in Southern Oregon. Stanfield is at present campaigning in the Willamette Lots 2 and 3, SE 1/4 NW 1/4, S 1/4 N Valley and is reported to be gaining much strength in that section. However McNary's supporters are declaring that they find a strong sentiment in his favor in Eastern Oregon. The Houston camp claim Portland as a radiating center. It is too early to make predictions but it is likely that SW ¼ SW ¼ sec. 24; NW ¼ NE this will be a race that will keep everyone guessing until the votes are 1/4 sec 26-30-37. 320 acres.

For the Democratic nomination Judge Will R. King, of Malheur county, now at Washington as Chief Counsel of the Reclamation Service, has announced his intention to seek the Senatorial toga, as has Sam White, of Por land. However, it is whispered that Ex-Governor Oswald West would would not oppose McNary and how he can enter the race consistently is difficult to understand, altho if he decides, it is admitted that he will likely win the nomination and would give any Republican a run for their life in the final election.

The Governorshp race is next. It is heads or tails again for the Re publican nomination, only a three sided nickle is needed because Governor James Withycombe, Secretary of State Ben Olcott and Persident of the Oregon Senate Gus Moser are all optimistic, determined and capable candidates for Gubernatorial honors. You may cherish your favorite, but take it from the dope sheet it is foolish to give any odds in favor of any one of these possibilities. A month from now this may all be changed but at present they all have a right to be happy. Others in the race are Dr. J. E. Anderson, of The Dalles, and undoubtedly L. J. Simpson, of Coos county. These men are both worthy aspirants, but at present they have not caused much of a flurry near the booking booth.

The Democrats looking toward the capital dome are numerous, altho Harvey Starkweather, of Clackamas county, is the only one to formally announce himself. Walter M. Pierce, a well known rancher of Union county, is being groomed by his friends, but has so far refused to commit himself. The Democratic dope sheet points to Pierce as the most likely contender for final honors with the Republican choice

Where is the Eastern Oregon man who would like to jingle the state gold for the next four years? Numerous candidates from the Willamette Valley make it possible for some well known "bunch grasser" to become state treasurer. R. Alexander, of Pendleton, has been mentioned, but it are E. D. Cusick of Albany, William Adams of Portland, O. M. Plummer of Portland and Labor Commissioner Hoff of Salem. Others are supposed to be coming and it will be pot luck or no luck unless some definite issue brings out a measure to guide the voters' choice.

A number of other offices are to be filled but at present the races for the Senate, the Governorship and State Treasurer stand out in prominence. Time will record many changes in the dope sheet; accidents may upset the figures, while dark horses may never attract any odds. There will be plenty of entries to open the race and we will watch with interest the tryouts and warming up process until April 12th, when the last contestants are in and the race is on for the primary nominations. Let us stand off the track and give all a fair start.

May May May May SHALL THE WARMSPRINGS PROJECT

BE CONSTRUCTED IN 1918?

Government officials of the Reclamation Service pronounce the Warmsprings as the best project in the United States. It has an extremely low acre cost, promises immediate returns and offers no complex engineering

While labor and materials have risen in cost, so have the prices of products. While the money market is being taxed by the Liberty Loan other securities are selling.

The vital question is whether the people within the district really want the project constructed. The figures show that the loss due to or year's delay will more than offset the difference in cost between any of the proposed methods of financing. Keeping this in mind the land owners should work together for any and all sources of finance and construction.

If the Chamberlain bill passes it is reasonable to suppose that the Reclamation Service will offer to construct the project. But if the dam is to be built this year we cannot wait very long for this bill. It may never pass. God helps them who help themselves. If the Government can raise the money and will appropriate sufficient funds, this district will annually return in increased produce value more than the cost of building. Let us keen an open invitation for Government aid but in the mean time let us farmers are instructed to place or look for independent sources of finance and construction.

We believe the district should secure the services of some well known engineer, who has had reasonable experience in irrigation work, who un derstands how to reach and convince the bond buyers, who can figure estimates so as to permit of competitive bidding, whose reputation will hold the respect of the land owners and the bond buyers, who can finally oversee the construction. Such a man could only be secured at a large salary, but several thousand dollars spent this spring will be little enough if it means that 20,000 acres of new land will be in cultivation next spring.

Let us find the right man and pay whatever is required to engage his entire services.

The sixth annual book shower of the Vale Public Library will be or eight different patriotic commitheld before long in the high school auditorium. The proceeds of the entertainment will be spent in purchasing new books for the library and a live newspaper helps it palpitate with special invitation is extended everyone to attend and help the library to patriotism. Oregon Voter. the extent of his ability.

"What is so rare as a day in June," in midwinter? Malheur county has enjoyed spring weather all winter.

No List of "Nonessential" Products No list of nonessential farm products to be denied transporation facilities, has been prepared by the Director General of Railroads, and the issuance of such an order is not con-

templated. It is believed that under the plan ow being formulated it will be possible to provide adequate transportation for farm products this year. The ders for cars when needed with local freight agents, as heretofore.

Not Much Space Left

Looking over the Jordan Valley Express it would appear that Editor Charles A. Hackney has turned it entirely over to the Government. There eems to be little else in it than Questionnaire, Red Cross, Food Conservation, Liberty Loan, Thrift Stamps, Y. M. C. A., and other war activities. Also Editor Hackney is secretary for the Red Cross and chairman of seven tees. Jordan Valley is about a hundred miles from the railroad, but this
