Live Community News by Enterprise Correspondents

Live Community Happenings of Interest to the people of Malheur County. Development News, Building Activity, and Irrigation Progress, sales, stock notes, personal mention, etc., prepared by Live Enterprise Correspondents in every nook and corner of Malheur County.

SPRING IS COMING

To Our Correspondents:—During the next few months there will be much activity in every section of the country. Try to mention in your news letter all new building activity, fencing, irrigation development, new land in cultivation, extent and progress of crops, road improvement and condition, farm transfers, and sales of sheep, wool, cattle, hay etc. In other words "cover" the business, agricultural and industrial news, as well as the social and personal happenings of your community. Always report the results of patriotic drives and campaigns, as everyone is anxious to hear of these things.

We wish to call attention to the fact that every week the Enterprise devotes more space in printing Community News Letters from nearly every district in Malheur County, than most country papers use for all the news in their paper. While it costs us a lot of money, we are only too glad to do it for the local community news is what the people enjoy reading. Live local news indicates a live community and makes a live paper, while the combination gives valuable publicity and helps develop the entire county.

We would appreciate it to receive your letters as early in the week as possible, and they should be in by Wednesday night to assure publication in that week's issue, while in no case can we arrange to print any letters received later than Thursday noon.

Barren Valley Roads Hinder Stage Service—Visit on Duck Creek Over Week End

MOOREVILLE, Ore., March 12. — Miss Eva Neely and S. F. Moore spent the week end with Mr. and Mrs. Glenn Moore on Duck Creek Mountain.

We are having very poor mail service on account of the bad roads. Lots of passengers going over the road now as spring begins to open up people come in to the Interior for the spring work.

There is a great deal of complaint from people taking the daily papers some report only getting one Sunday paper in three months, others only four copies a week. We would like to locate where the trouble is and why the papers do not come in. We live so far from the outside world and our mail means a lot to us and there should not be any lost papers, as the mud dries up we hope for some improvement.

WAR CYCLOPEDIA ISSUED

Pertinent Facts of the War Concisely and Authoritatively Stated

A "War Cyclopaedia" is the latest special war publication of the Government issued through the Committee on Public Information. It is a handbook for ready reference on the great war, and contains in some 300 pages a great mass of information simply arranged and clearly stated.

It is issued in response to an insistent demand from many students, writers, clergymen, lawyers, business men and the public at large for authentic statements of the outstanding facts concerning the war in alphabetical arrangement.

The "War Cyclopaedia" was edited by Frederic L. Paxton, University of Wisconsin; Edwon S. Corwin, Princeton University, and Samuel B. Harding, Indiana University, the editors drawing freely upon the time and the patriotic good-will of a large number of special writers from all parts of the country. Because of its special value and the high cost of printing a small price of 25 cents a copy has covered the cost of production and distribution. It may be obtained from the Committee on Public Information, 10 Jackson Place, Washington, D. C.

W. S. S. Quota's

Salem, Oregon, February 28, 1918. To the County Superintendent:

I was in Portland last week and met with Mr. Jackson and his War Saving Committee. Several of the county superintendents were there also and we left very proud over the praise given by Mr. Jackson to the county superintendents and their teachers for their loyalty and interest shown in the campaign. He said that if all the committee would know the same interest as did those directing the work of education, the money would be easily raised.

We must remember that the quota for each county through the schools is twenty dollars for each pupil enrolled in the schools. I trust that you will be able to approximate the total amount of stamps purchased by the pupils of the schools of your county by the end of this school year, as this department will without doubt, be reported upon by the government for a call at that time. The War Savings Campaign will continue until December 31, 1918.

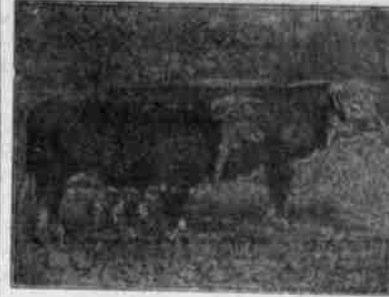

Very sincerely yours, J. A. CHURCHILL Supt. Public Instruction.

Alaska is celebrating the fiftieth anniversary of its annexation to the United States; also it should be celebrating that it doesn't belong to Russia.—St. Louis Globe-Democrat.

There is more Catarah in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarah to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarah Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O.
