

RIVERDALE

Will Build New Bungalow—Old Pump House Moved for New Building

RIVERDALE, Ore., March 12.—Farmers have started spring plowing and will commence sowing grain earlier than usual unless rain prevents. Not so many potatoes will be planted as last year, owing to the fact that hundreds of sacks are now stored in cellars and pits with no prospects of market. The potatoes have shrank, sprouted and lost in weight. Farmers are anxious to do their bit in helping win the war but they do not deem it necessary to grow stuff for which there is no demand. Growing and harvesting spuds is a hard slavish job to say the least and the idea of all the hard work when it is benefiting no one is too much work for nothing—so the potato business, not the potatoes—will be canned by many farmers and let it rest in peace.

The pump house of the old "River-side Irrigation and Power Company", now owned by the Malheur District Improvement Company has been moved a short distance down the river where it will be more convenient in many ways. A new up-to-date pump has arrived and will be used in place of the old out-of-date pumps.

Quite a number of relatives and neighbors were present who thoroughly enjoyed it from beginning to end. The birthday cake with twenty-nine candles was very attractive. One by one the candles were removed from the cake by each of the guests and blown out with some kind wish for Mr. Pearce, throughout life and especially that he might get Kaiser Bill when he goes to France or Berlin and return safely home. A very tasty and satisfying lunch was served at about 12 o'clock which was very much enjoyed by all. Those present had a jolly good time and wish Ruben many, many more birthdays.

FLOUR IS 50-50

Must Buy Amount of Substitute—Ayer says "Come Through"—McKnight Says "We Will"

In asking the cooperation of the people in this service for our country, I feel sure that Malheur County's response will be the same patriotic rally that has been the answer to every call, no matter what the sacrifice may be, was the comment of County Chairman Geo. W. McKnight of the United States Food Administration with reference to the following telegram received from W. B. Ayer, State Food Administrator.

Portland, Ore., Hon. Geo. W. McKnight, Vale, Oregon.

Owing to the absolute necessity that this country furnish wheat for shipment to our army abroad and to the people of France I have received positive instructions that no sales of flour can be made without an equal quantity of substitutes and I am putting the order into effect today. This will undoubtedly inconvenience many of our people but they must thoroughly understand that it is an absolute necessity and the time has arrived when we are called upon to come through and do our full part. Please give publicity.
