RESUME BIG BATTLE

Germans Apparently Refreshed After Few Days Lull-American Troops in Trenches

After several days of comparatively o fighting along the battle front in Picardy, bitter fighting was resumed Thursday morning, along the western sector in the lines of the entente allies. American troops are now fighting shoulder to shoulder with the to fill vacancy in term ending March French and English in front line

> WASHINGTON - Renewal of the German assaults against the British and French lines in Picardy Thursday indicated to military observers here that the Germans, having gathered strength during the lull of the last few days, might now be ready to launch their greatest effort. Some officers think the allied commanders realize that only the first phase of the gigantic battle has passed, and that this probably accounts for the fact that no extensive counter move-

ment has been undertaken as yet. German newspapers declare that the German drive was halted by bad weather and not by the Franco-British defense. Admission is made that the Germans are having great difficulty in moving up guns and supplies over the muddy area of the Somme. and that transport is in poor shape because of the necessity for constructing new roads.
