## The Home Lumber And Coal Company

J. C. CONKRIGHT, Manager.

United States Fuel Administrator, H. A. Garfield, on April 5th, issued an urgent appeal to the people of the country to begin at once to lay in their next winter's supply of COAL. Every household, is earnestly advised and urged to place without delay their orders for coal to cover their needs for the twelve months beginning April 1st. The mines are not prepared and cannot prepare to store coal. Even if they could it would be of little benefit. The coal might as well remain in the mines as be stored at the mouth of the mines.
