WHAT GERMAN RULE MEANS Systematic Exploitation of Belgium Under the Rathenau Plan

WASHINGTON, D. C., April 19.—The systematic exploitation of Belgium by the Germans under the so-called "Rathenau Plan" is revealed for the first time to the American people in the latest publication of the Committee on Public Information, issued today, entitled "German Treatment of Conquered Territory." It is based upon unpublished reports to our Department of State, and other sources as yet little known in this country, and presents an appalling record of calculated German greed and brutality. Much of the most damning evidence is derived from the official orders and other utterances of the Germans themselves.

The Rathenau plan was suggested early in August, 1914, by Dr. Walter Rathenau, president of the General Electric Company of Germany. It consisted essentially in the formation, under his direction, of a bureau to procure an unending supply of essential raw materials, such as rubber, saltpeter, metals, etc., both by purchase in neutral markets and by seizure in occupied territories. Secretly a more dastardly purpose was pursued. "The plan aimed not merely at making war support war by contributions and requisitions forced from the conquered peoples. It also sought to destroy the industries among the subject peoples so that it might not be possible to build them up again for some years, if at all. In the meantime the German authorities counted upon their ability to capture the markets of the world for their own wares."

"A GOOD MAN TO WORK FOR IS A GOOD MAN TO VOTE FOR"

Your Kind of a man who has worked for : : : L. J. SIMPSON

The highest possible endorsement. The most rigid test that his policies, practiced over a period of twenty years, are SOUND, JUST and EFFICIENT.

THE BEST POSSIBLE PROOF that his pledges to the citizens of Oregon are not mere "words," but WORDS BACKED BY WORKS.

Those who know him believe IN him, believe IN his ABILITY, believe IN his POLICIES. They know he will give Oregon a CLEAN, IMPARTIAL, BUSINESS LIKE administration.

They know it to be true, ABSOLUTELY.

WHY?

Because—

In nineteen years he has employed 21,000 men.

He has always paid good wages.

He never had a strike or a personal injury suit.

He built many homes "on time," never foreclosed a mortgage or sued on a promissory note.

He has helped many laboring men acquire their homes, their business and their livelihood.

These workers, who know him best, have endorsed him to a man, have adopted the above slogan and that's "WHY" he is "Your kind of a man for Governor."

## REX THEATRE PROGRAM

Saturday, May 4 "THE AMAZONS"

Featuring Miss Margaret Clark Paramount actress. An intensely interesting drama, full of sparkling comedy incidents. Ladies should see it.

Sunday, May 4 "DURANT OF THE BAD LANDS"

A Mexican photoplay, featuring the famous Dustin Farnum. Full of excitement and hair raising adventures. This film has played to large crowds in many big cities.

Friday, May 10 "PERLS OF DIVORCE"

A powerful moral object story. A Fox standard film, passing the board of censor with a high grade. As the title indicates, it is a lesson of the evils of Divorce, dealing with the problem from a purely social standpoint.

### One of a Series of Informative Articles on Dental Hygiene—No. 3

Increase Children's Efficiency 99.8%

An investigation in the Marion school, Cleveland, Ohio, showed that 97% of the school enrollment had decayed or irregular teeth. Twenty seven of these, from one to four years behind in their grade were organized into a dental squad. At the end of the year there had been a 99.8% increase in working efficiency of this squad.

A similar experiment in the Buckman School, Portland, Oregon showed great results. The new Prophylactic or Preventive Dentistry has for its principle—KEEP THE MOUTH AND TEETH CLEAN! This doesn't mean that people should merely keep their front teeth clean and white on the outside. It means that all the teeth must be kept clean on all the surfaces, front, back, sides, and down to the gums, and below the gum line. To this state of cleanliness possible to a very high degree, teeth must first be made smooth, and then highly polished.

After this work has been done—proper daily attention given the teeth by the individual—they may be easily kept clean and healthy.
