SOLDIERS' LETTERS

Sees Nine Hundred German Prisoners Captured by Americans.

Following is a letter received by Mr. and Mrs. O. H. Lawrence of Ironside from their son, C. P. Lawrence who went over with the first expeditionary forces last fall. The letter contains interesting bits of news for home folks.

American Expeditionary Forces in France, May 5th, 1918. Dear Father and Mother:

I will write today it is Sunday and I am spending most of the day writing letters to the folks back home.

It has been awful warm the last two or three days but it is raining today, it rains half the time and the other half it is backing up to get a new start, but we should worry about bad weather if we are glad to get into it. I saw Nine hundred German prisoners that the U. S. boys captured the other day, they had just come down from the front. I wanted to take them by the heels and crack their heads over a rock, it might hurt but I don't think it would they are just about as hard as the rock. If I could get hold of the Kaiser he would have a headache before I got through with him.

I had my hair shaved off today, they say a fellow's hair turns white after a bomb or two bursts close to him, so I thought I would shave my hair off now and get used to it before I get over the top, for I might get scared and I will go but I like to get ready while I have got time.

I am anxious to go up to front but I guess I will get there soon enough.

I got a bunch of papers the other day, was real glad to get them, I will read them over and over again until I get another bunch, the news from old Malheur county never gets old to me. I saw several letters from the boys over here in the Enterprise, I hope I will have some of them. I don't think they are so awful far from here, there is not anyone from Malheur county in my company, but I wish they were. But I don't care to have any of them with me when I go over the top, for I might get scared and run and they would have to laugh on me when I come back.

I seen in the paper where several more boys are to be called out of Malheur county, I feel for them and wish they had good luck and hope they don't have the time that I did when I crossed the frog pond. I was sick from the day we started until we stopped and the day after I forced a big dinner down like a dune, and I wasn't but a short time until I was over in one corner trying to get rid of it.

It has been a week or more since I got any letters, but will get them all in one bunch I guess like I did before. I guess I told you about getting up in the air and that distance from the front not long ago from the noise those big guns was making, they must of been doing some fighting.

Well I don't want to write all I know I won't have any news to write in the next letter. The censor might work on this letter before he will let it go through but I hope he doesn't.

I will close with love and best wishes to all, Good-by.

Your Son

The following letter was received by Mr. and Mrs. L. A. Bilyeu of the Cow Valley district from a former neighbor now in training,
Camp Lewis Washington, Dear Friends:

Please excuse pencil but all the tables are full so I have to write on my knee, so I can do a little better with a pencil.

Was glad to hear from you again will sure be glad to know that you folks are looking after things up on the homestead, they couldn't be in better hands.

You will have quite a calf crop when they all arrive. That is the way to make it in that country.

Am out of the hospital now and am glad of it, it seems like I can't get enough to eat since I got back but have to be a little careful yet.

You and Chas. can both manage so you can use the Spring-tooth. He may not need it at all.

I am taking the signal work all together now. I like it better than any other part. Will give you our day's program so you will know about what we are doing. For an hour in the morning we have physical exercise, then buzzer practice, then semaphores and then buzzer again till noon. In the afternoon we have wig-wag first, then heliograph, and then elementary electricity till quitting time. Then three evenings out of the week we receive light signals from a tower across the parade grounds; we

Semaphore is flag signaling, one has to be out in the open to send a message, but it is a rapid way.

Wig Wag is a nother method of flag signals with one flag and a six foot staff, a message can be sent from behind some protection but it is much slower way than semaphores. Heliograph is sending flash messages from the sun with a mirror. The buzzer is a good deal like a telegraph instrument and messages are sent over a wire by means of dots and dashes. The telephone is used to quite an extent in sending messages, but none of it is office work. A fellow will have to set in a shell hole with the rain running down the back of his neck and send dots and dashes or telephone, etc., as the case may be. None of the war work will be any fun. But folks like you are doing your share where you are. Answer soon if you can study this out. Your friend Edgar W.

Enlists in Army—Ivan Ingman enlisted in the army at Twin Falls, Idaho a few days ago and left immediately for Fort Douglas, Utah from where he has been transferred to Jacksonville Fla. M. Ingman is a former Vale boy and has a large number of friends here.
