### NATIONAL WAR SAVINGS DAY MUST BE BIG SUCCESS

The national War Savings Committee, which is carrying on, through its State and local committees, a Nationwide campaign to get all the people on or before June 28 to pledge themselves to save to the utmost of their ability and to buy War Saving Stamps with their Savings, has given out the following statement:

"Those of us who remain at home while others do the fighting have an ever-increasing number of opportunities to do definite and highly important work for our country. We wish to do this work as an expression of the gratitude we feel in being privileged to continue at our usual tasks, to enjoy the loving companionship of our families, to meet freely with our friends and neighbors, to enjoy all the security of life and most of the pleasures and the economic privileges of peace times while other men, who have had to put aside all these things, are fighting our battles, for us on the sacred soil of France and on the high seas.

"Our new opportunity to serve comes as a result of designating June 28 as National War Savings Day, a day which all men and women and all children of sufficient years to appreciate the day's significance are called upon to pledge themselves to save to the utmost of their ability and to conserve all possible labor and material for the Government, and to buy War Savings Stamps with their savings. Our part is to do everything possible to make this day stand out among the great days of this period of the war.

"National War Savings Day is to be the great rallying day on which everyone in our country is expected to pledge himself or herself to save and economize. This saving and economizing will first of all leave in the markets a greater supply of labor and materials for the use of the Government with which to fight the war. And then the money savings of the individuals are to be invested in War Savings Stamps

"What the Government asks us to do is to pledge ourselves to buy at definite periods with our savings a specific amount of War Savings Stamps. The thing to be accomplished is to get subscriptions which will take care during the balance of the present year of the unsold portion of the \$2,000,000,000 of War Savings Stamps authorized by the Congress to be sold during 1918.

"The duty of us at home is to see to it that the entire amount is subscribed. We must work to that end. We must add to our already great army of war savers. National War Savings Day must be made the great success of all of us hope for."

### INDUSTRIES MUST BE SECURED AND CLOSED

The next steps in arranging for the construction of the Warm Springs project are the securing of a competent engineer, selling the remainder of the bonds and letting the contract for building the dam and the distribution system. Many other minor matters must be attended to by the Board of Directors, the Secretary and the Engineer. They have the confidence of the entire community and patience must be kept while they labor faithfully for the desired development.

However there is much work for the other people under the project to occupy their spare time. Much land must be cleared, and new institutions created to care for the needs of the increased production that the project will create. Among these must be provided a creamery, a grain elevator, a fruit and vegetable dryer a flour mill and many other industries which will find a new and inviting field of expansion. However these community building enterprises will not come unsolicited, any more than the project itself has developed without effort. The biggest task of the local people today, next to that of helping to win the war, is to take definite steps to have these necessities available as rapidly as they are needed. In fact by so doing they will be directly aiding in the war program.

### TO SECURE PUBLIC COOPERATION MEANS WORK.

You cannot deliver a bill of goods, a new idea, or a civic duty without the effort of honest salesmanship. Do not blame the public for indifference. If you are in charge of a committee or public organization, cooperation can be secured in no other way except in first giving your assistants an intelligent conception of what is to be done. This means your time and effort.

### PERMANENT CHAUTAUQUA PLAN NEEDED.

Friday was the opening day of the Second Annual Vale Chautauqua Assembly. Indications are that the program will even excel that of last year and the thought of giving up the Chautauqua is not to be considered for the best interests of the city and county. However there are many local circumstances which make a change in the contract desirable. Instead of making a minimum guarantee, the local people should buy the Ellison-White service, including talent, tent, etc., complete for the week, take all moneys received and should there be a profit we can spend it on improving the grounds or advertising the next year's assembly. If it is going to be a local success it must be more of a local affair. At least 100 singers from Vale and nearby towns this week should sign a contract to buy next year's Chautauqua, and each singer should promise to take a minimum of four tickets. In this way there would be no question concerning the permanent establishment of the Vale Chautauqua. Let us organize a permanent association, and elect a board of directors; but this week while we are interested in the work why not 100 or more of us sign up to buy the next year's talent at a flat price, and have at least 400 season tickets sold for the coming year.

### Little Things Count

It is more necessary in these war times to make the little things count than ever before. One of the best ways to get big results out of the little things is to use and read the classified columns of the Malheur Enterprise. You can sell, buy, find, trade and in fact accomplish most any object desired by a faithful reading and frequent use of this department.
